For those of you who are reading this, that means the true version of the yearbook has been revealed to the public, thank goodness. It also means that I have been compromised, but that is not important. What matters is that you are about to see the truth, the real truth, not what the government wants to make up and wants you to believe.

The Yearbook Staff and myself had a tough job putting together this year's book. We had to find the smartest, most advanced minds to put this book in effect, not to mention finding and researching and deciphering the right information. The team and I worked hard on this, so that you, could be exposed to what's real, what you're supposed to read.

When most of us enter high school, we either think, "I wonder what this experience is like?" or "Hmm, who else will I meet in this new environment?" We ask lots of question, as we enter as Freshman, but spend the next four years getting those questions answered and putting together our personalities one piece at a time. We also spend these years finding ourselves and choosing what we want to do with our lives. On this road to self realization, we each have our

DE-NO
CONFESSED

own disappointments and broken hearts, but it's when we place ourselves back together, stay true to who we are, and achieve our goals that makes our time in high school some of the best year's we have.

From here on we carry on those strong bonds from these four years and have our whole lives to make new memories and even more priceless friendships.

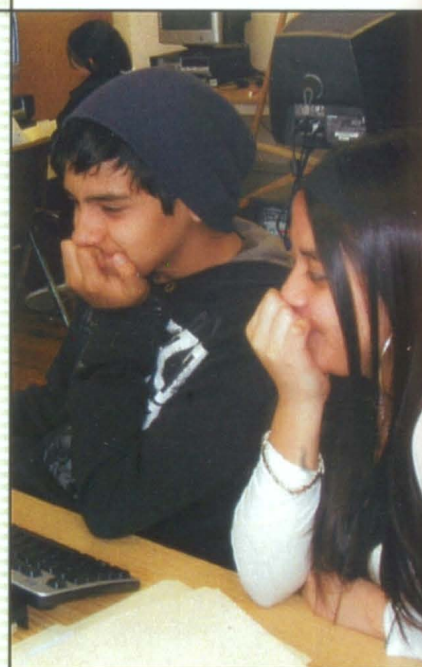

So this is your chance to take

life into your own hands, to make it how you want. It's not going to be easy though, you will have to work, for what ever you want in life, but it's when you finally earn what it is that makes the reward worth while.

It was a pleasure serving as your Editor in Chief. Revealing these truths has been a pleasure. Be careful - don't let them know about this copy of the Yearbook - or else your thoughts will be wiped clean.

2010 Blood Drive

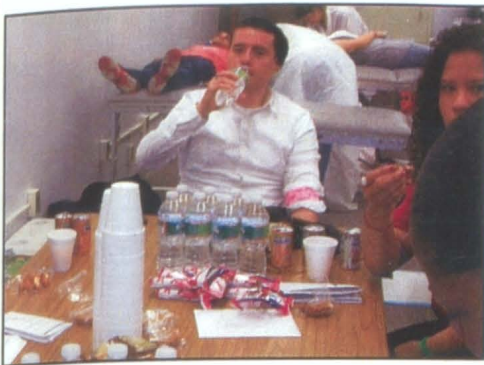

2nd Blood Drive of 2009-2010

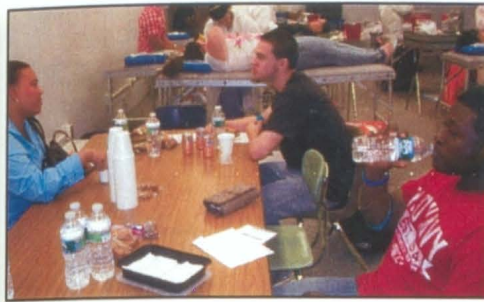

On May 13, 2010 Technology held its second blood drive of the school year when the Blood Center of NJ came. It was held in the old library in the T-building. There was a turn out of over 50 participants. It was a first time for many 16 year olds since the state had just passed a law saying they could donate with parental consent. When speaking to some of the first time donors they stated that

they were nervous and that they were "there for the cause".

When interviewing Mrs. Nancy Ortiz-Kollath she explained just what and how good the cause was. She stated that once a person was allowed to donate one pint of blood, that pint will be able to save the lives of three people. She also stated that since New Jersey is a densely populated state

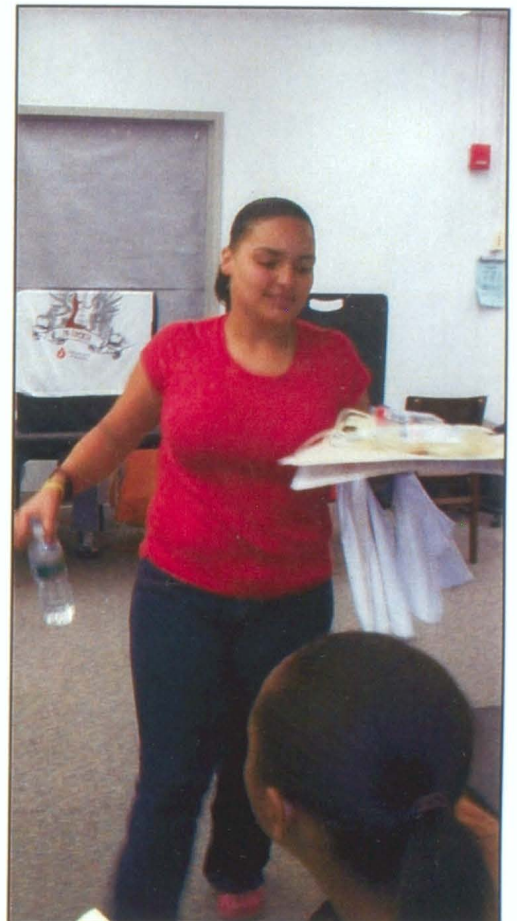

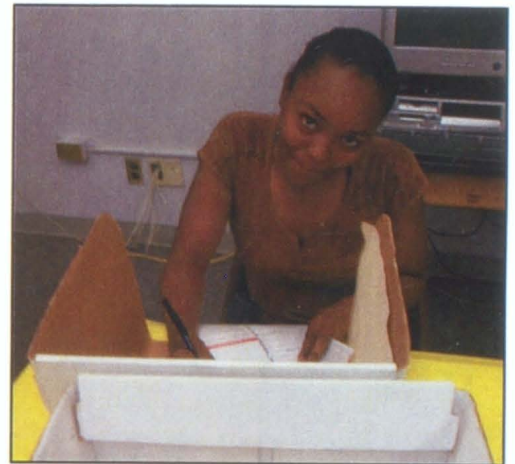

Students had to refuel after giving blood, so they were given snacks and some water.

below Charmaine Turner fills out her forms. "This is my first time" she said.

bottom A student heads to the waiting area before giving blood.

coupled with the amount of donors being low that when New Jersey needs blood they sometimes receive it from New York.

Speaking to one of the blood bank workers that came out to help organize the event, she said that having people donate blood helps to teach selflessness and gives the body a chance to create new and healthier blood

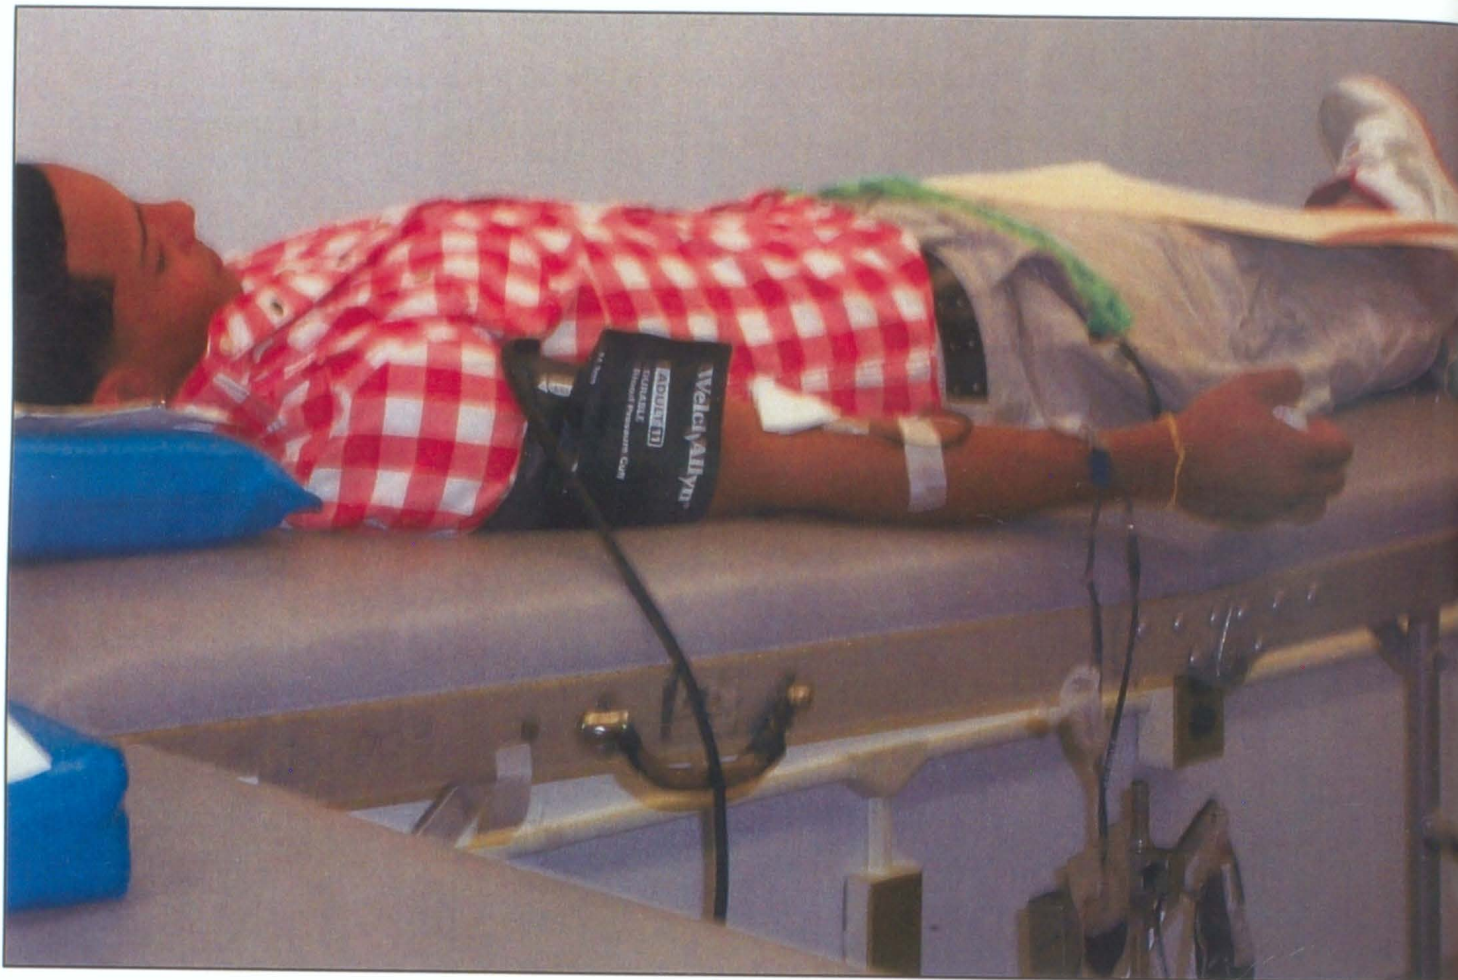

cells.

There were a total of four procedures to insure a safe and healthy donation. The first and most important thing was the registration which asked simple questions that every donor had to fill out. After was a physical interview where donors had to get their blood pressure checked along with their iron. Those who

passed the interview were then able to give blood.

Participants have to lay on their backs with legs slightly in the air for

2010 Blood Drive

good flow. After everything was set up donors need to squeeze a small ball every five seconds. After the process is finished they were given a bandage that said "just gave blood". The final stage is when donors sit for snacks and a drink to restore blood and blood sugar quickly.

Students who donated blood received ten hours of community service and an Apple Bee's gift card. Also, all sixteen year olds who donated blood received a free t-shirt along with everything else. Even teachers got into the cause. Ms. Satterfield went down to give blood stating that it was her first time giving blood at Technology but she started when she was around sixteen.

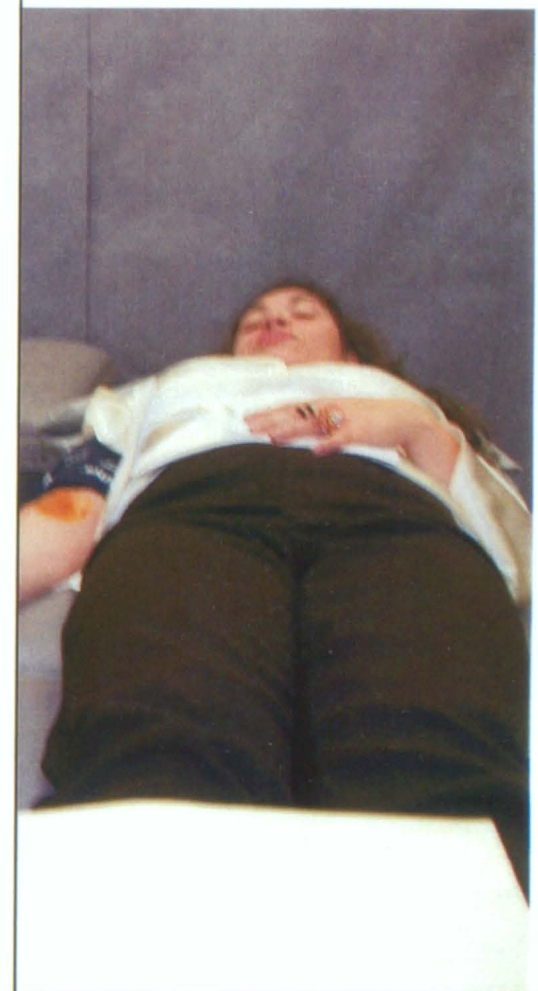

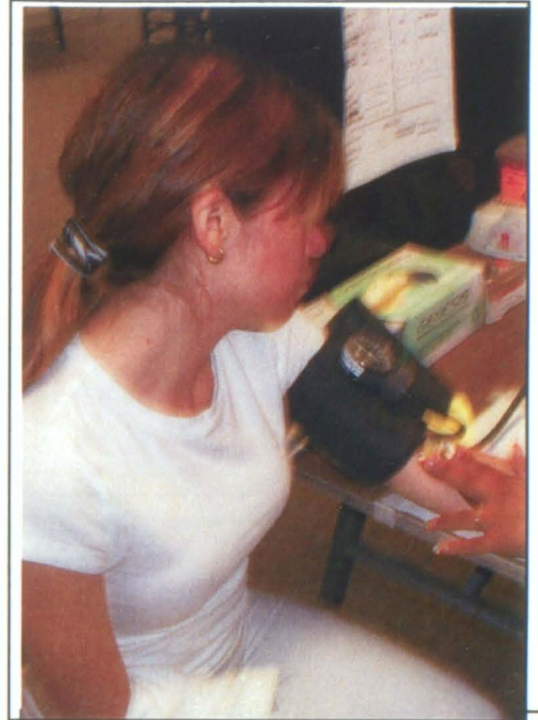

1. Here someone is getting their blood pressure taken.
2. Here, Junior Vanessa Velez is resting after donating.
3. A student has just been approved to give blood.

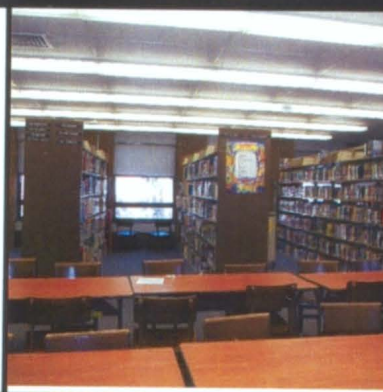

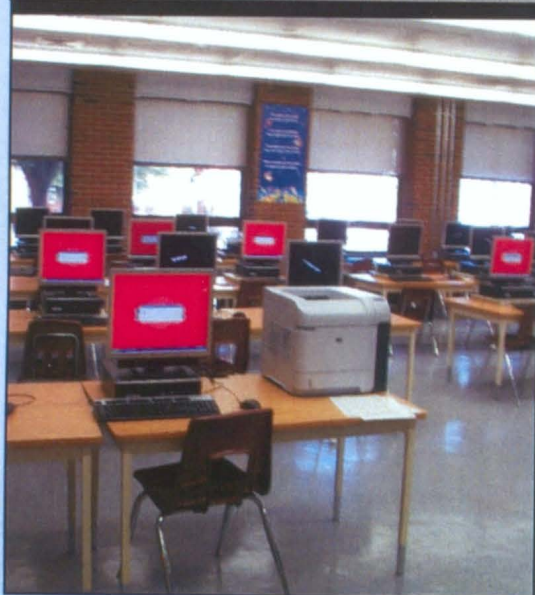

below: Donors had to hand in their personal information, then take a short test to confirm that their iron level was healthy.

bottom: Here we see veteran blood donor Ms. Ortiz donating her blood.

right Our school librarian has been a media specialist for 18 years. Mrs. Francine Dellisanti has been working in this building for 17 years. Mrs. Dellisanti has personally moved the library three times from the room it is currently in to the room it resided in before and back to the new location. Which means the new library is actually the old library, at least it is for Mrs. Dellisanti. "I like this location better than the other because it was like a box," stated Mrs. Dellisanti. "This location is open, airy, and has the sunlight from outside. I can have 3-4 classes in here at one time," she continues. "I have more visitors because of the space. It's user-friendly, its more inviting, the computers are faster and has new media software, the books just seem more wonderful, and there is smart board now."

above left A few bookshelves.

above right The new smart board for tutoring.

The library used to be small and cramped with bookshelves and had only a few computers. That could be why so many students were so excited about the new library. Not only is it bigger but there are more computers and they are newer.

Most students felt the same about the library's new location. Ashley Christmas, a sophomore, stated "I like the new library because it's bigger, has more space, and more activities and computers. Tutoring is easier with the smart board."

Most rejoiced about the computers. Caroline Espinal says "I like the new computers." and freshman Marline Reynoso exclaims "I like the view, the computers, and it is bigger." When I asked senior Lorren Merritt what she thought she stated "I love the new computers, I like the fact that there are windows to see outside with. It feels like

more of a library and not just a room with books in it."

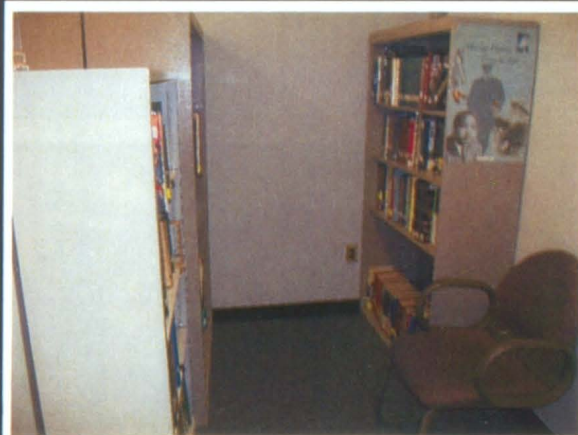

Not only are the computers raved about but also the decor adds to the wonderful feel of the new library. More students seem to like to go to the library because they aren't cramped at tables or sharing computers. Also the library has more of a relaxed setting because students at the computers won't disturb students who are reading or studying or writing at the tables with their typing.

All around we feel that the new library is one step taken to better our school. confident in the school because of the new library, hopefully we get a new gym and be able to take these steps for a better school." Many students agree and are proud to have the new library.

NEW LIBRARY

bottom More bookshelves.

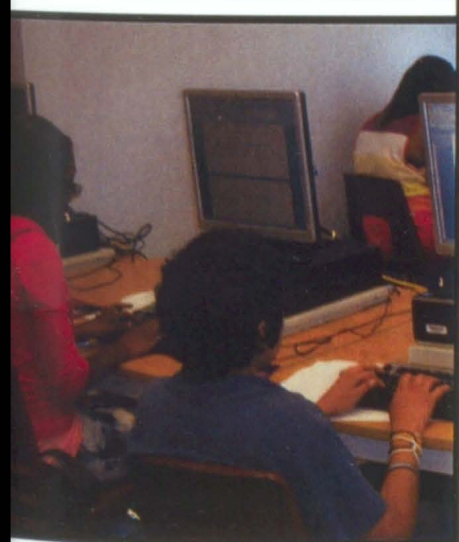

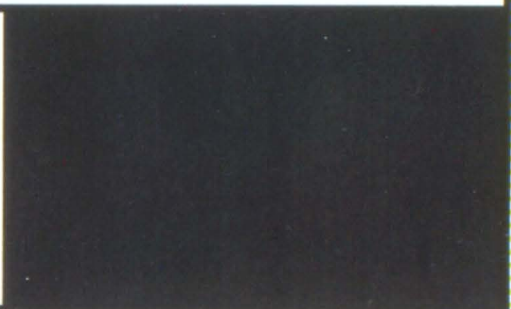

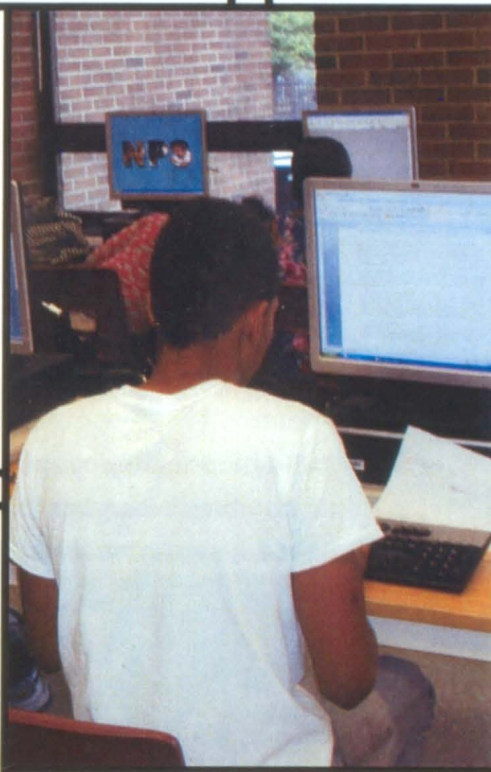

left A nice sunny sitting area for reading.

above A private little reading corner.

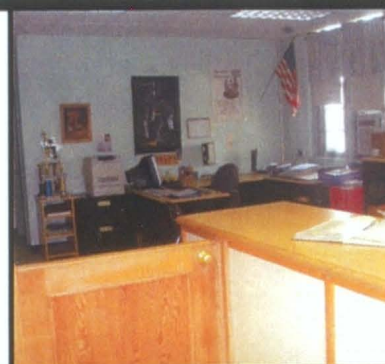

a The old office area.

b The new office area.

Technology High School had many positive changes this school year. One of the biggest changes is the new main office. Luckily for us, the SLT offices moved out and we no longer have to share our school building. Like most school offices, our main office is clean and painted. It was designed by the students of Ms. LeFerve's class around September. Our main office wasn't only designed by students but it was also wired by the students of Mr. Ocejó's class. They were involved in wiring the computers, the phones, and wiring the central air. The old main office had very little space and therefore the principal's office wasn't in the main office like most school offices have. Now, since the new main office has plenty of space, the location of the principal's office was moved in the new main office. When interviewing Mrs. Muhammad, she was delighted with the way the office came out, she loved the idea that the students designed everything and would not change anything in the office. "I love all Technology High School students" Mrs. Muhammad added. The new main office brought lots of hope because it gave us a solid foundation for our school. Our old office was small and would not stand out. The new office is unique and truly reflects Technology High School and its students. "The new office truly reflects the Technology High School students because they contributed to the layout the way they believed was best to reflect our school" states Jasmin L. Esteves a sophomore at Tech.

Donors Choose

Donors Choose is a organization that donates to teachers materials for their proposed projects. Basically a teacher or staff worker will write a proposal about what they want their students to do for a project. You must include the materials you need for the project and the donor's choose whether or not they will send the materials. There must be an educational reason or else you will be denied.

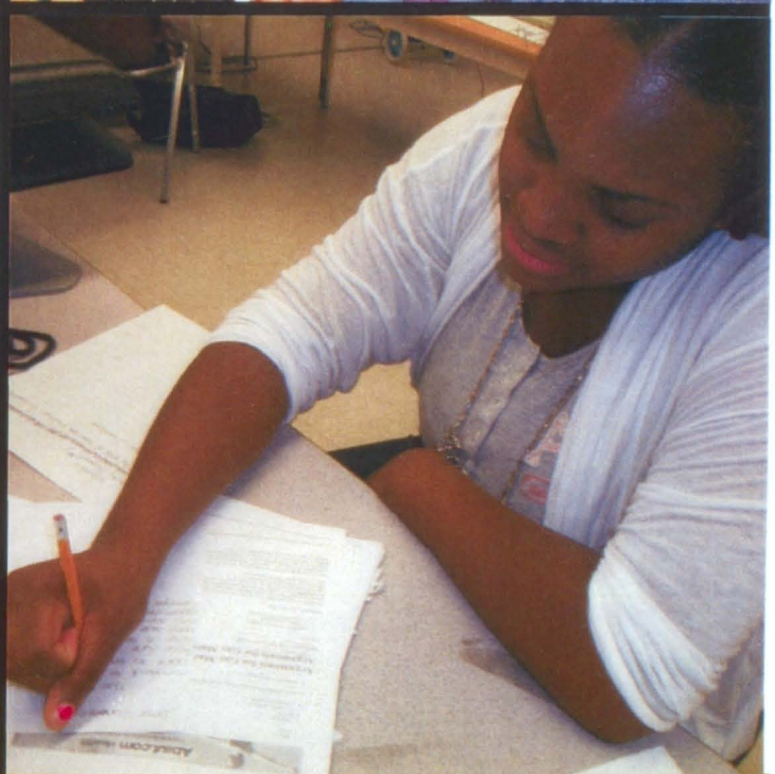

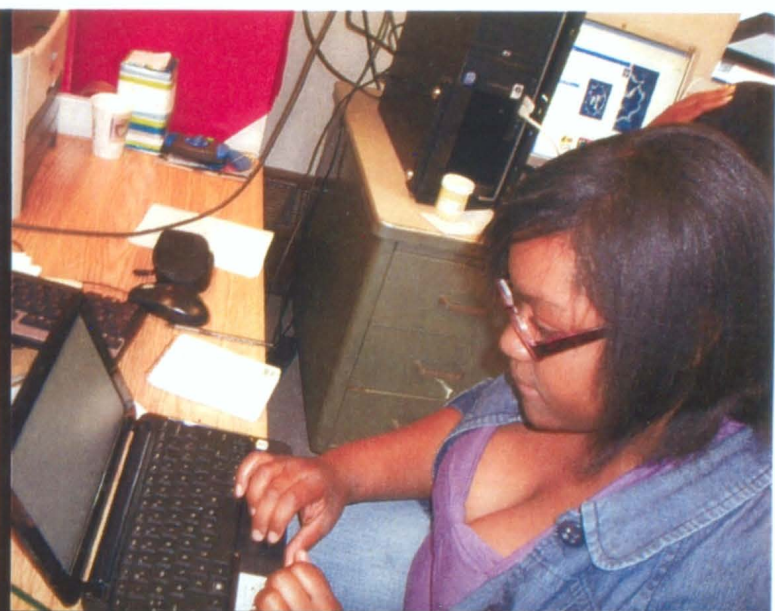

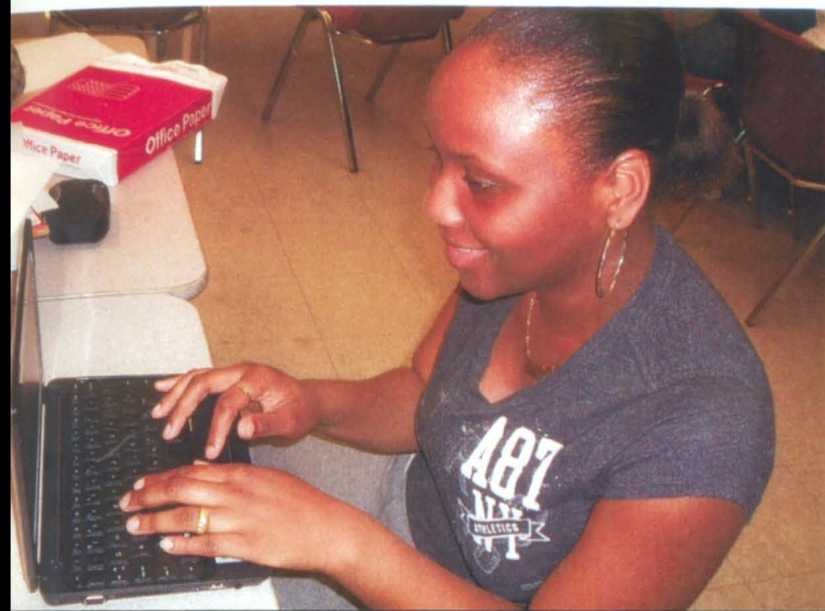

When you get the materials you must send pictures of your project or of students working on the project and thank you notes to your donors. So far in Technology high school has about ten teachers who have written proposals to Donors Choose, but thousands of teachers across New Jersey have written to Donors Choose which means you must have a very plausible reason for what you want or you may get passed up.

Mrs. Davis, a staff worker at Technology, explained to me the steps to obtain your materials from donors choose. "You have to write the proposal, make sure you have a

good reason, and once you get it you have to take pictures and send thank you notes." "I have ordered a portable overhead projector, it is light and I can project my images on any surface small or big."

Mrs. Davis is one of many who have received their orders and have been successful with it. "All I have to do now is send my thank you package for the donors." Mrs. Haynes has ordered microphones, camera's, laptops, and etc. Anyother teacher interested in getting something for your class, all you have to is go to donorschoose.org and begin the process.

Spirit Week

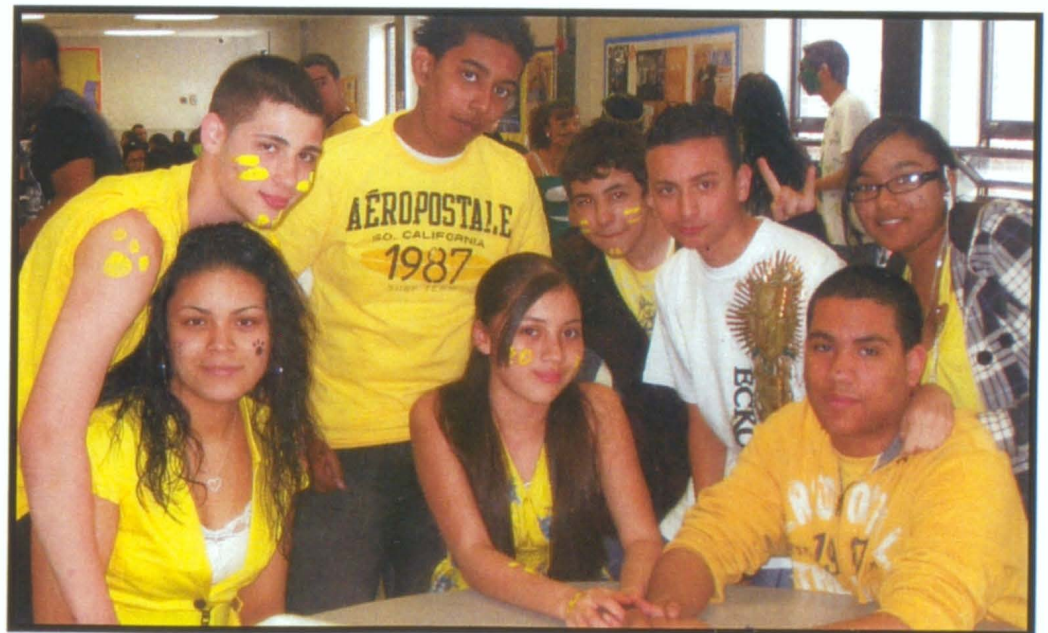

Spirit week is once a year before we go off to our spring break. This is the time when students can get a little bit crazy and loud to present their graduating class. Students wear different colors from each other; freshmen wear yellow, sophomores wear blue, juniors wear green and seniors wear black and white. Once the year is over and the students move into the next grade they have the colors that go with their current grade. Every student in Technology enjoys spirit week and gets excited when the actual prep rally comes. Each day during spirit week students have to participate in activities in order to win the spirit week for that year. This year we did penny wars and whoever has the most pennies in the bucket loses. Students would bring pennies or dollars to put in other classes buckets so they can lose. The sophomores ended up winning. We also did can drives and book drives, students had to bring the most books and food cans in order to win. Also, students from different grades had a floor they had to decorate and make it something to represent their class. Not only is spirit week fun but students actually come together and help each other out. In 2010 spirit week, seniors and juniors came to a tie in first place. Spirit week is the best part that all students look forward to throughout the school year. Even though classes go against each other at the end of the day, everyone is showing Panther Pride. Many can't wait for next year spirit week and what's in store for the year 2011.

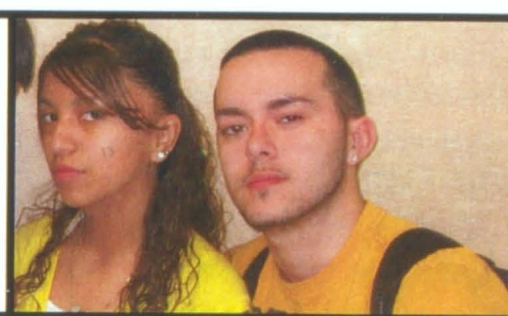

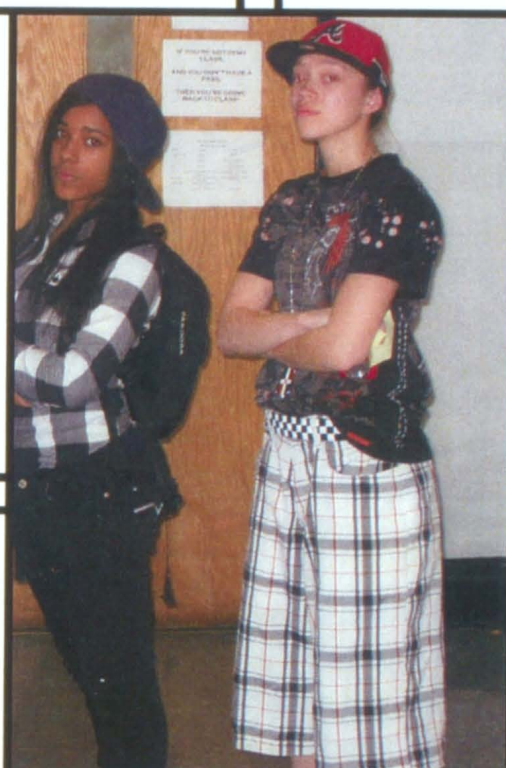

Spirit week was fun and exciting."

Luisanna Peralta

National HONOR SOCIETY

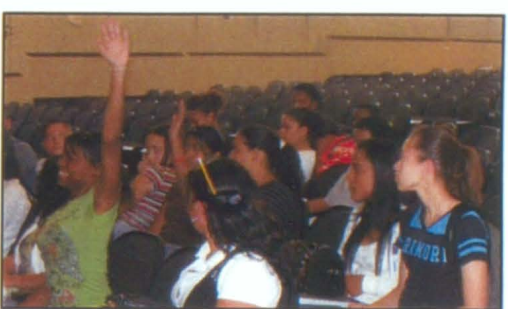

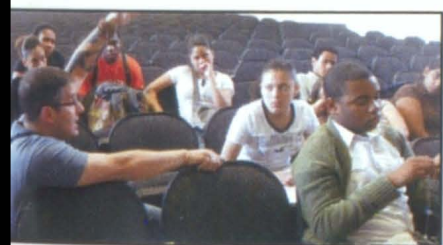

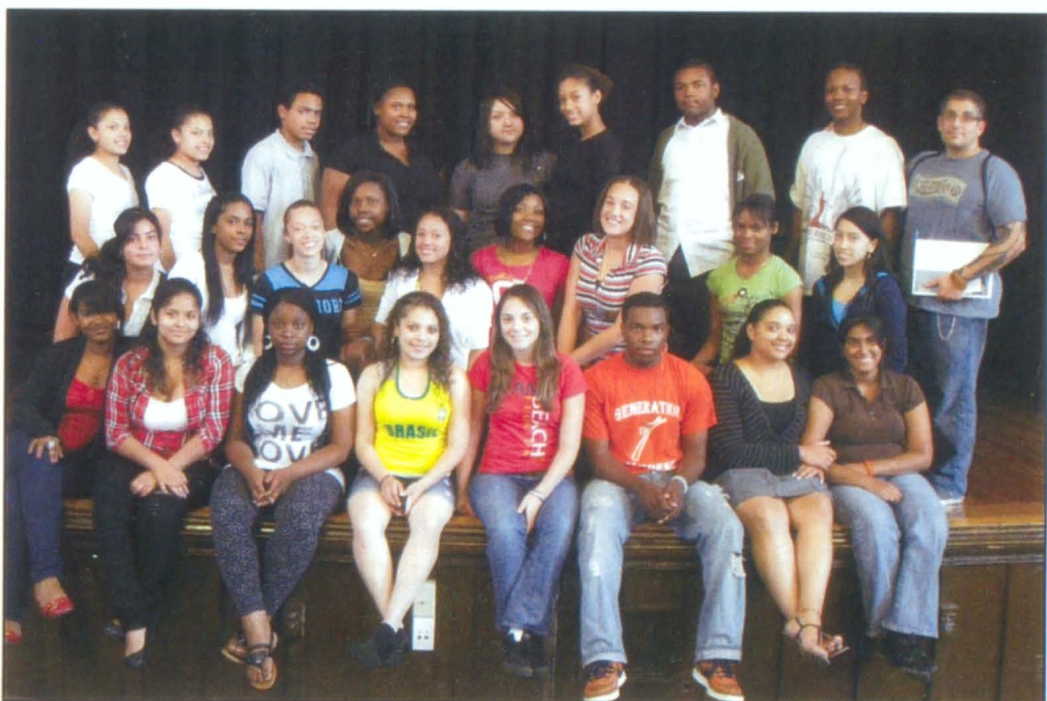

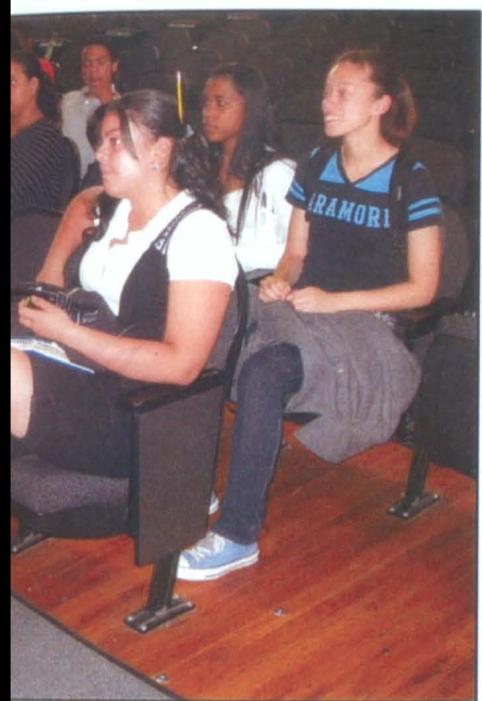

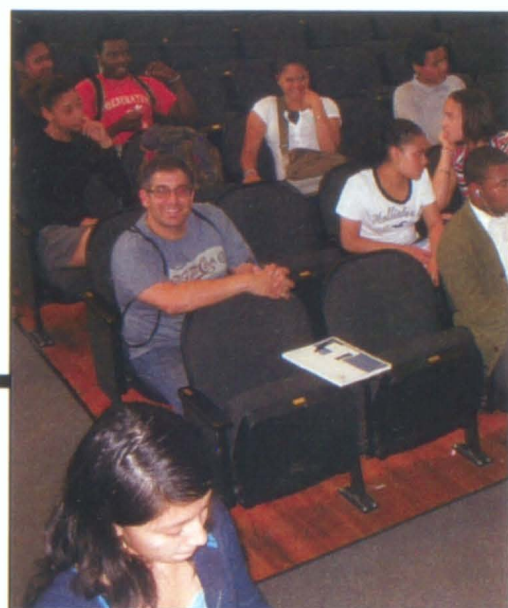

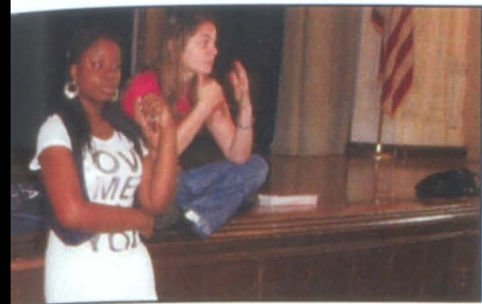

Character, Scholarship, Leadership, and Service; these are the basic principals of the National Honor Society. So much has happened this year. They've had the greatest number of members. They've really been stepping up their game. The NHS currently consists of some really hard working Sophomores, Juniors, and Seniors who had to apply and work their way into this honorable society. The National Honor Society members are the leaders of the school. Therefore, they have to make the difference and set the example to the rest of their fellow classmates.

One of the most famous events of the school, took place and was a complete success thanks to the master mind behind it all, the Spirit Committee leader, Jannalee Correa.

Amongst other activities the NHS did several volunteering and fundraising activities, in which they worked really hard at, and even many helped students that needed help with subjects in school by giving public and private tutoring sessions. At the end everyone worked together to do a great job for the students and most importantly the school. The Seniors that were involved in the National Honor Society did a great job as well. They will be immensely missed. Let's hope next year the NHS will do as good or even better!!

The National Honor Society at one of their meetings.

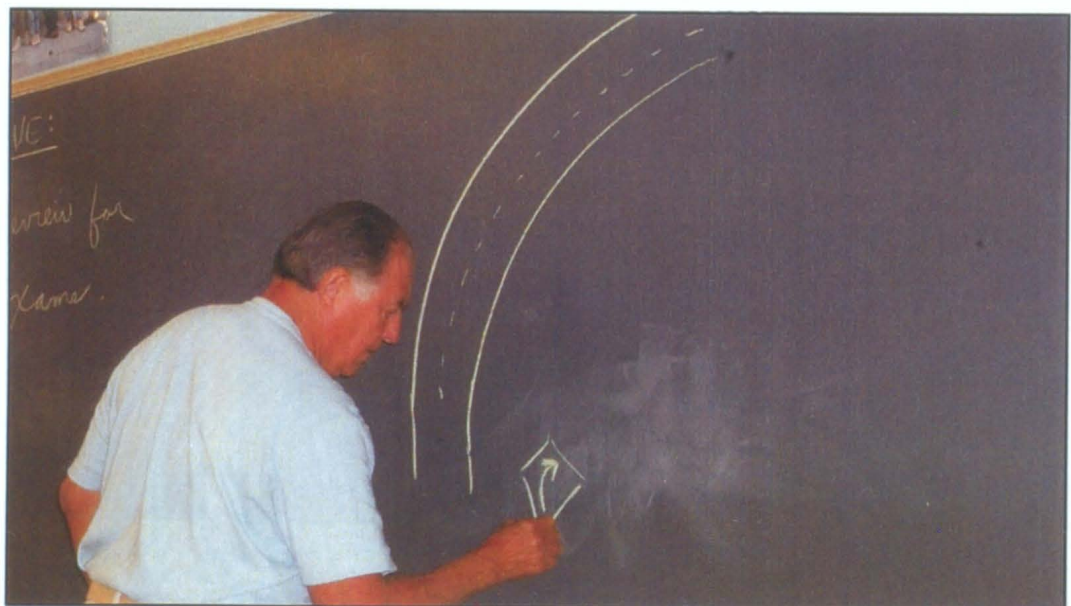

Drivers Ed.

In Technology High School, we learn to use the most latest and renowned technology and inventions known to man. One of these inventions is the automobile. Technology High School has a class specifically for learning about how to operate the automobile and the laws of the roads of New Jersey and General Driving Laws. This class is available when one has reached their third year of high school.

The Driver's Education is one cycle long and at the end of the course, the written driver's exam is given to each student who

took the course. Those who pass are given their certificate which they may take to the NJDMV, New Jersey Division of Motor Vehicles, and are then able to receive a learner's permit and be able to drive, with someone with over 3 years experience of driving in the car of course.

For those of you who don't know the method of obtaining a driver's license using Technology High School's course, it is in this fashion: Pass the course, obtain driver's permit certificate, register at NJDMV, obtain 6 months of driving with proper

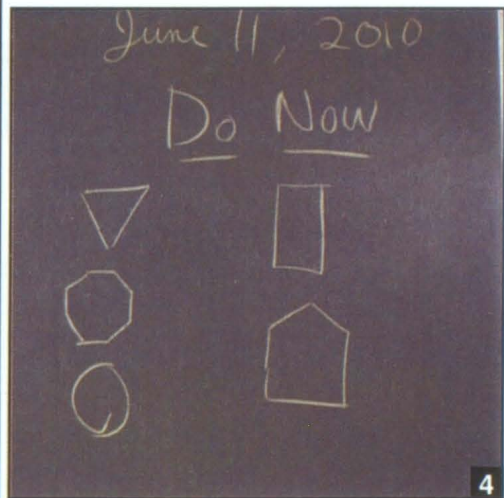

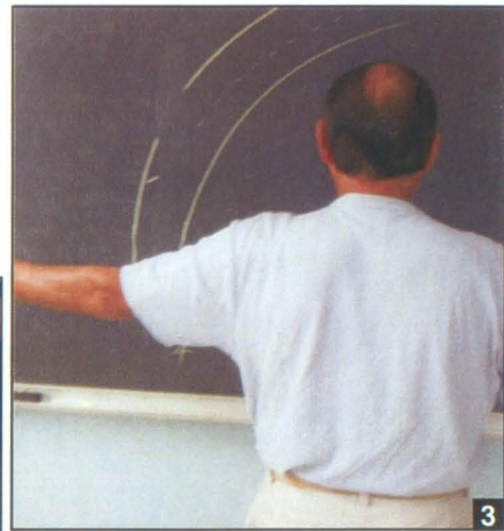

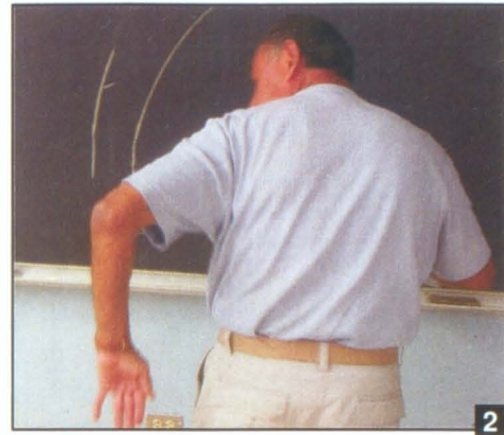

supervision, acquire 17 years of age, and finally, pass the road test at the NJDMV or other registered driving facilities.

After all this hard work, you will receive your driver's license and be able to show off to all of your friends. Oh and be sure to not mess up your ID photo for your license, you only get one picture, unless you pay for another with all the fees.

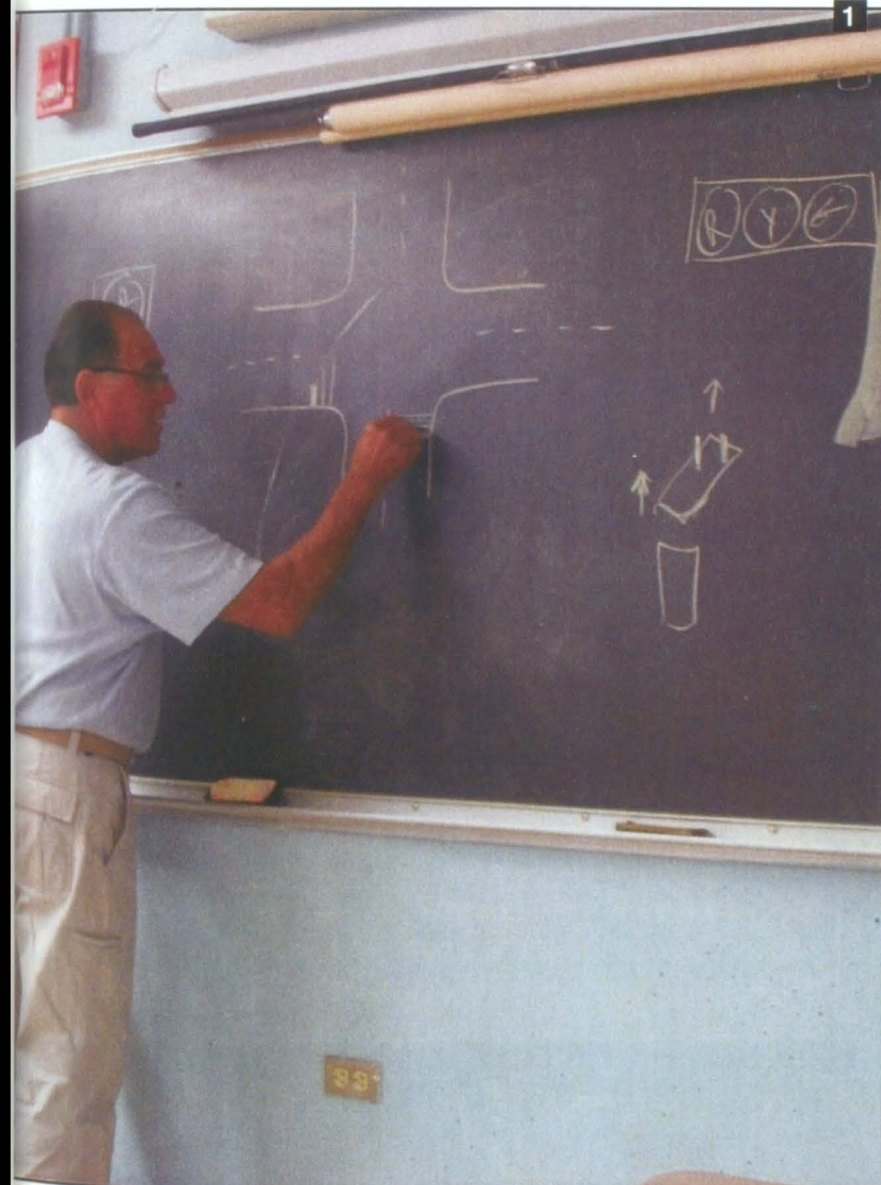

1 Mr. V. the drivers ed. teachers draws a four way intersection.

3 This hand gesture means to turn left.

4 The different shapes of road signs.

Diamond Girls

Diamond Girls is a club for young ladies only, from freshmen to seniors. Girls from every race and different religion go after school on Mondays to see Ms. Wilson, their advisor. They talk about different topics each meeting they attend. Topics range from being yourself to sharing your feelings about certain things.

Sometimes the girls would give each other advice and help each other out. Ms. Wilson wants these girls to feel comfort about themselves and showing respect to yourself and others. The colors

are pink and black.

The Diamond Girls is a club that lets girls interact and come together through diversity as well as school. This club goes from middle school to high school. In middle school they call themselves "Best Friends".

Sometimes the Diamond Girls have special speakers to speak to them about certain things. They attend field trips like going to Rutgers University. Ms. Wilson cares a lot for these girls; she does

what she can to make sure these girls understand what the club can do for them.

At the end of the program they have a party to celebrate what they have been through and what they have achieved while being in the program. A few girls are very sad and disappointed because of the bad news they currently have received this year. Diamond Girls will not be going on after this year. After so many years of this great club, the Diamond Girls will say good-bye.

2010

Math Olympics

It's not surprising to see a small amount of members in the math club. In fact the word math instantly brings disgust or horrific images of receiving a failing grade in previous math classes - well for some it does! The thought of having to deal with math during school every other day, or for others every single day, and then having to commit to it after school too, is disturbing. As a result, math club as you can tell is not one of the popular clubs that everyone fawns over. However, the reality of the fact is that math club is actually fun.

Most importantly, the math club is most known for its successful math olympics, held in the auditorium last year. During the math olympics, four teams of four students, each student consisting of a different grade level, were put together to compete against each other to see who was superior at math. Each group consisted of the top math students of each class grade.

To promote student participation for not only those involved, but the audience were each placed in a certain area labeled with a different team color, either blue, red, yellow, and green. The color given to the student in the audience determined which team you had to root for. This made the experience fun for both the contestants and the audience.

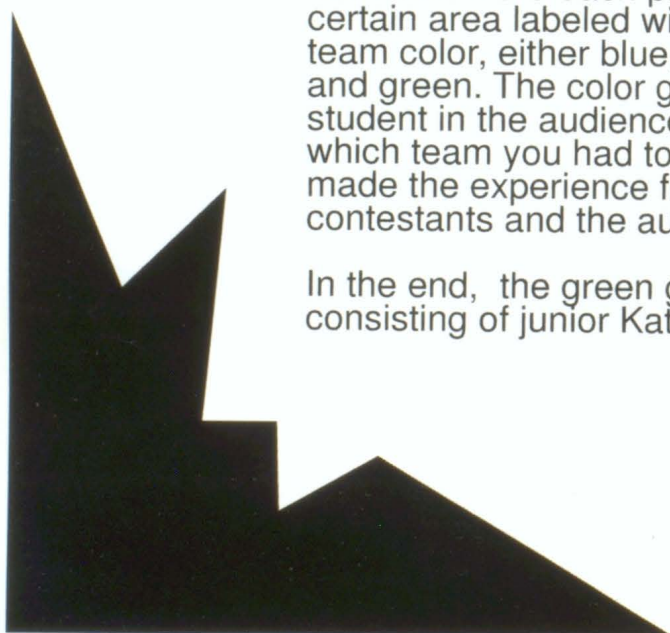

In the end, the green group, consisting of junior Katherine

Hernandez, senior Bryant Humud, alumni Michael Robeiro, and sophomore Tyisha Smith, came out victorious from the competition. Each won a small cash prize to spend on what ever they pleased.

The success of the first math olympics held at THS has encouraged the math club to work on a second Math Olympics this year. In addition to the fun activities provided by the Math Club, the members did more than just come up with different activities for the students. In order to help those students that struggle with math, several different power point slides covering a wide range of math topics, such as domain and range or the pythagorean theorem, were created.

Also, as members of the math club, it is our duty to provide help or assistance to anyone who may need help with their math homework. This is the main goal of the math club.

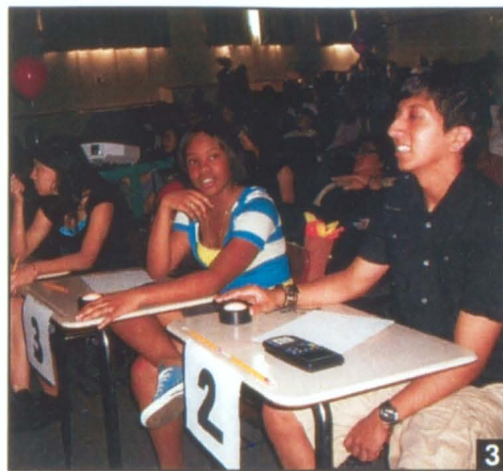

In conclusion, the math club tries to make math more fun and exciting, something that students don't believe.

Students concentrate on the questions.

below Nice set-up.

left Students watch silently.

2010 Walk-Out

Newark Public Schools has been going through some bad times when it comes to school budgets. The governor of New Jersey decided to cut aid to the school districts - which means NPS lost millions of dollars. The loss of money means there must be necessary, but not wanted - cuts to faculty, staff and student programs throughout the district. Many students are upset because they feel that while the cuts may be needed, cutting programs and such will only make things worse in the district, not better.

For this reason students decided that they wanted to walk out from school and go to 2 Cedar Street and protest against the Governor. High school students from all over New Jersey like Newark, Montclair, and Union, walked out of school to show how much they care for their

education and their teachers.

At Technology High, against administrative and staff advice many students still decided to walk out and they marched straight to 2 Cedar and then to City Hall. Policemen and news reporters were taping the students and taking pictures. Students peacefully gathered in front of City Hall to demand for their voices to be heard by the Board of Education and the Governor.

After the walk out, our principal scheduled a meeting with the whole student body to talk about their thoughts on the walk out to make what some viewed as a disruption to the educational process a teachable moment.

We were not able to obtain photos of this event before the book was stolen but we managed to reclaim the article.....OMG!

Uniforms 2010

This year uniforms were required but not mandated for high schools in Newark. Students at Technology High did very well in the beginning of the school year with wearing their uniforms.

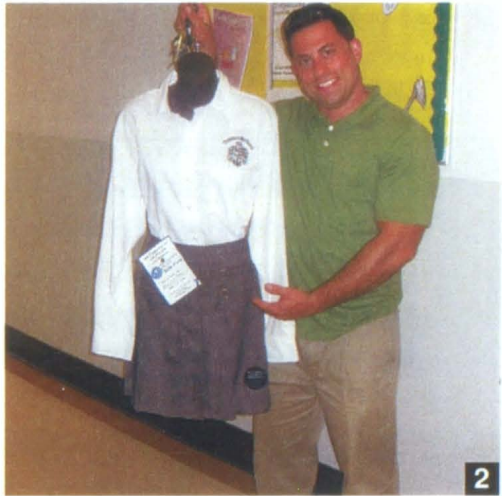

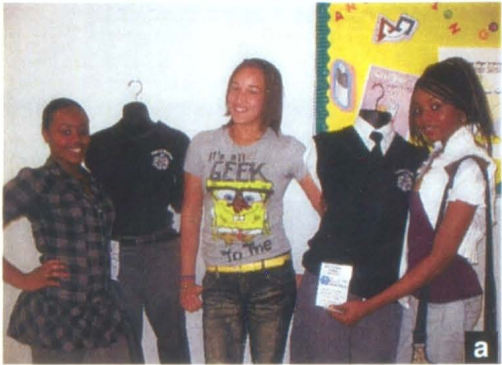

The class that seemed to be most in compliance with the new uniform mandate was the Freshmen. They were and still seem to be the one's to beat in the "show your Panther Pride" by wearing your uniform race. However, students soon realized that uniforms were not so bad after all. Uniforms help show school pride, and, above all else, give students a sense of pride about themselves.

below An actual student wearing his uniform!!!

This is what we would look like in our uniforms.

above Teachers love uniforms!

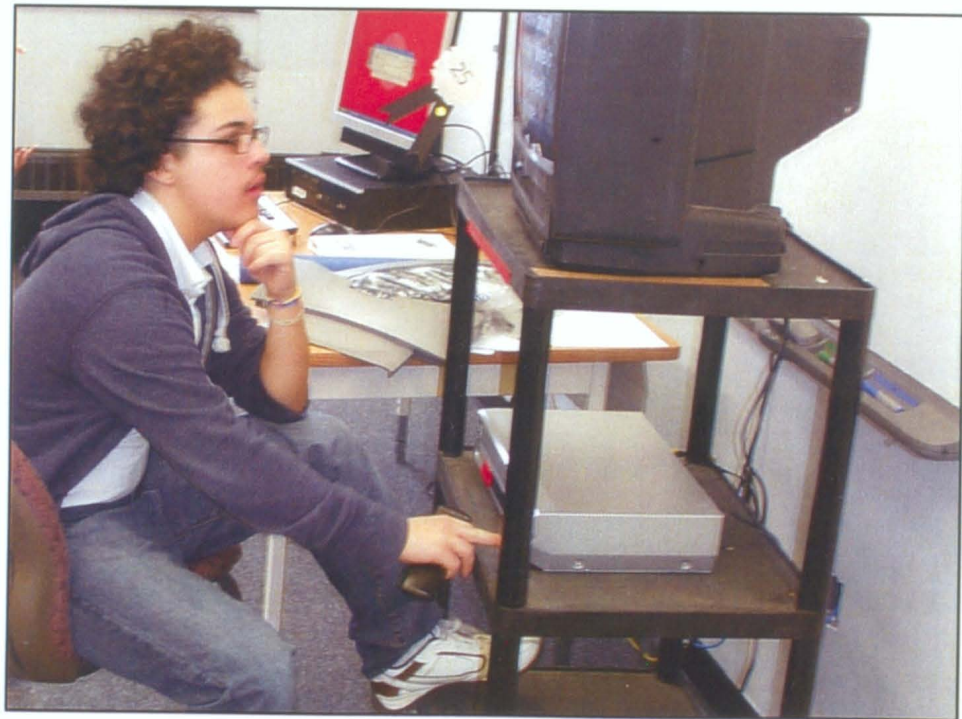

Project Fair

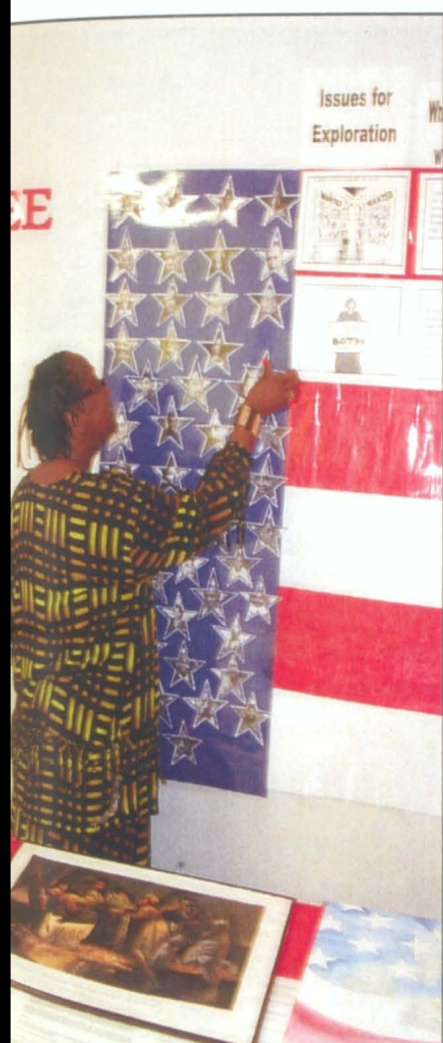

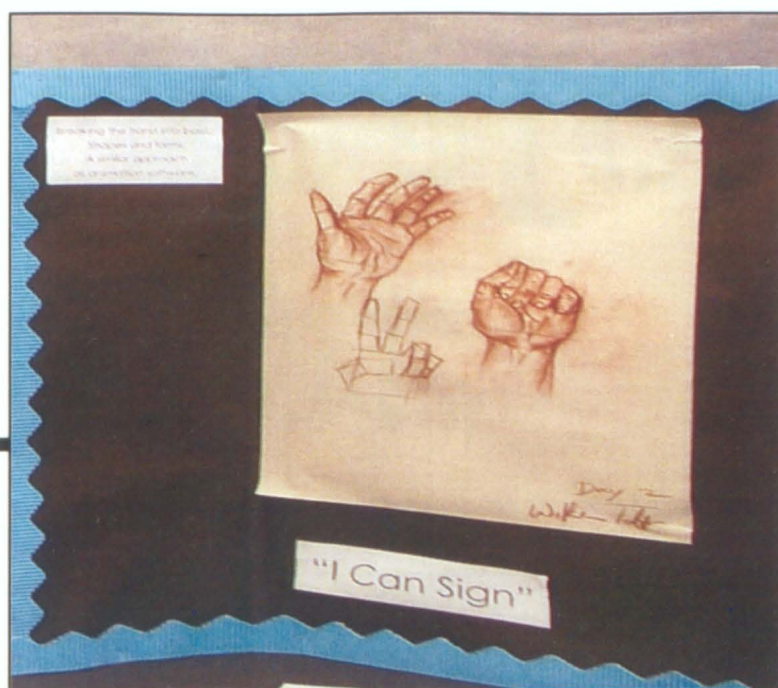

This year Technology High School held its annual 2009-2010 Project Fair. The fair this year was blistering with pride, excitement, and intensity. Each teacher and group tried their hardest to overcome the competition with each other. Every participant had something special to bring into the ring of competitors. Whether it was knowledge, talent, or skill, they all had a special role to play to ensure victory for their team.

Each project was unique in every way and category. From sound waves and

multiplayer gaming to projects on creating a "Green" environmental roof and using energy from potatoes to power light bulbs, all the projects had something special to offer. Some setups even had demonstrations and could allow audience to participate.

There were many projects, but only one winner could be chosen, with two runner-ups to be included. However, one project was crowned king, and dubbed, "Winner of the 2009-2010 Project Fair."

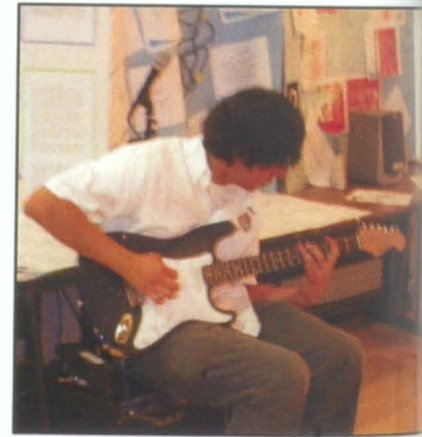

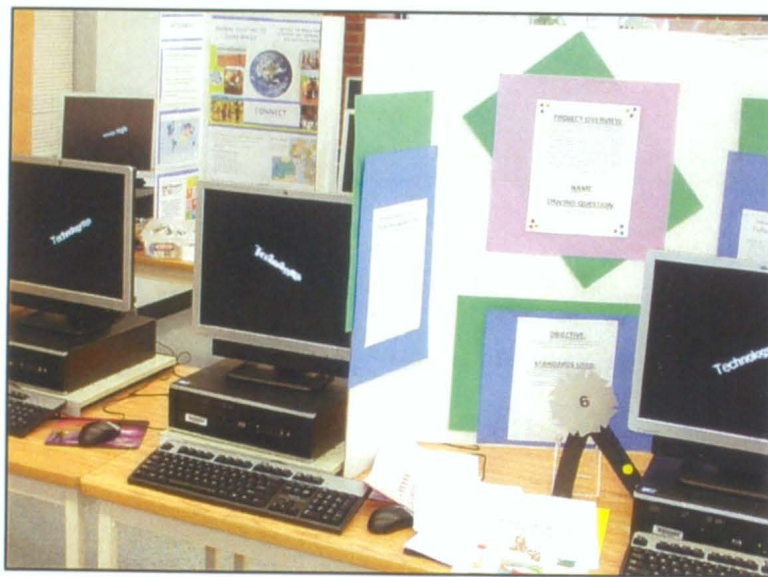

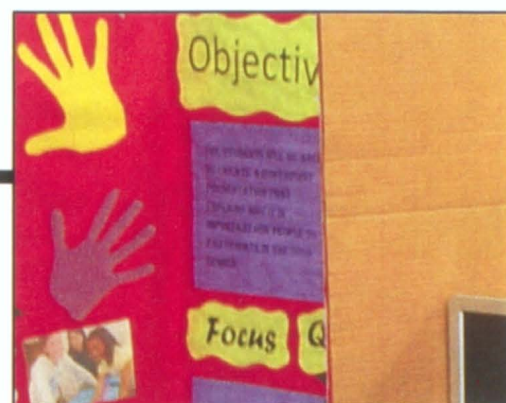

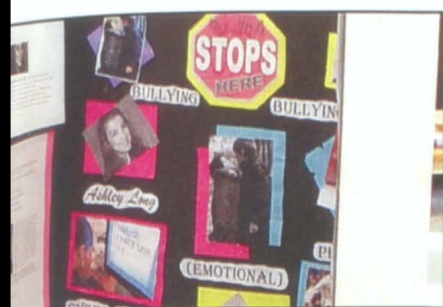

The Project Fair was remarkable because of all the creative entries.

- Ngozi Ofobuzo

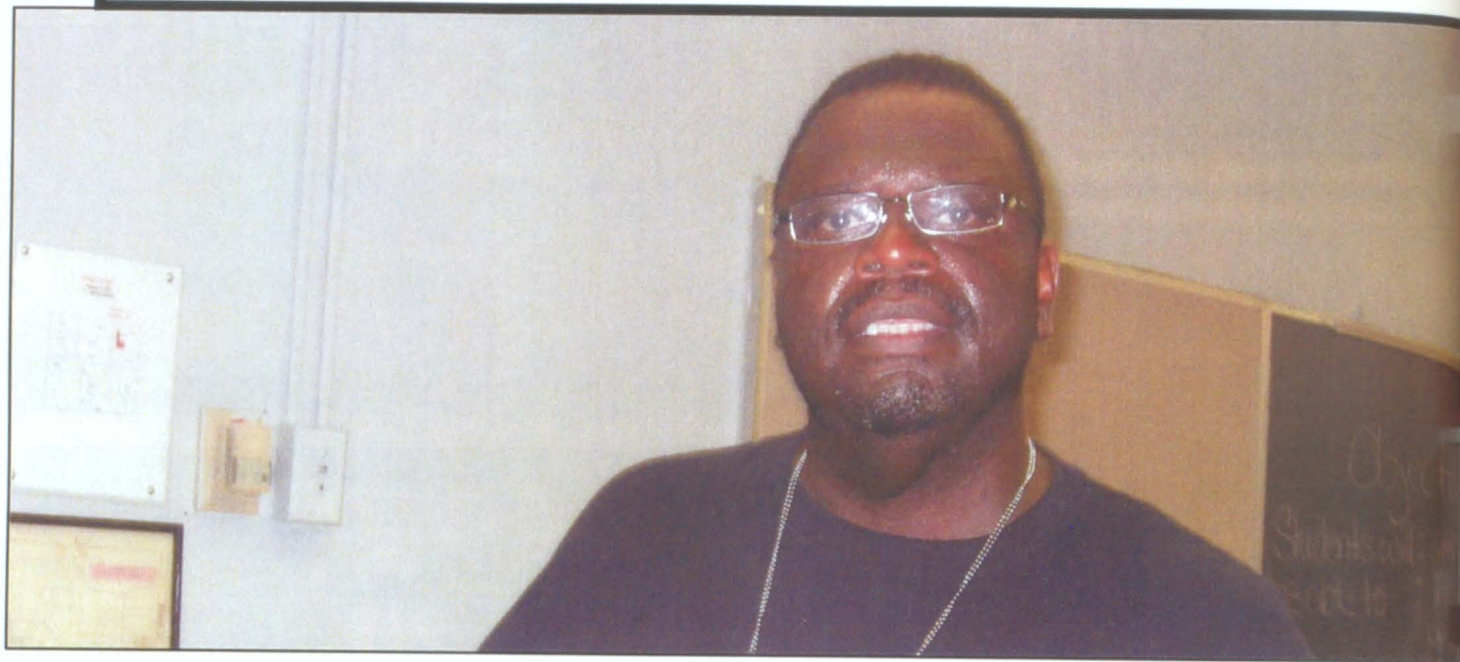

Project Fair 2010

INTERNATIONAL

FOODS DAY

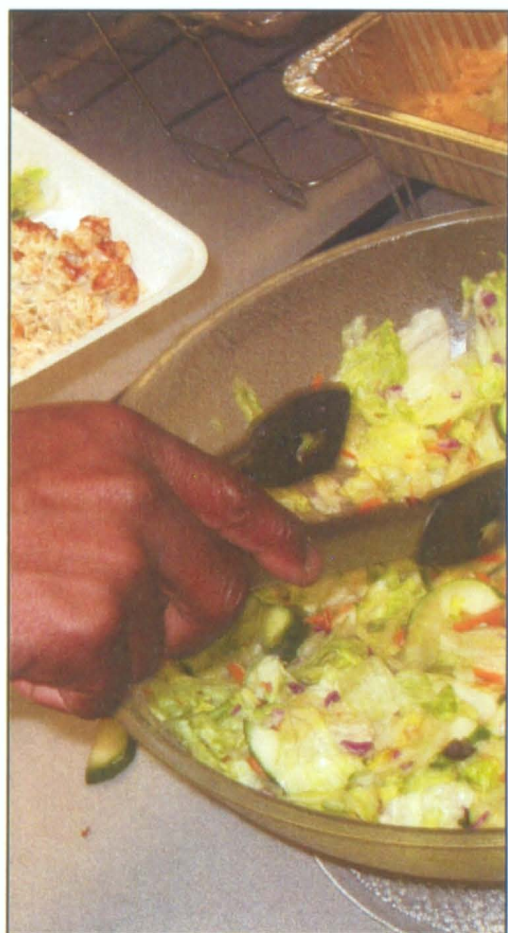

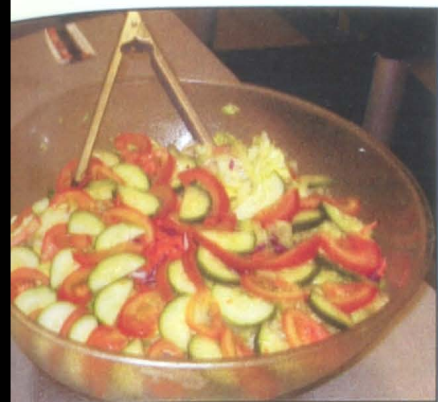

International Foods Day was a very exciting day for the students and staff at Technology High School. IFD (International Foods Day) was powered and arranged by Mr. Will and Mrs. Haynes. This was the 2nd annual IFD and it was held in Mr. Will's café on May, 20, 2010 during both lunches. Staff purchased \$7 dollar tickets to be able to attend the IFD buffet. Once they entered into the buffet they received pink wrist bands just to be sure no one tried to sneak in or pass off bracelets and tickets.

There were several students who helped at the event with serving food, cleaning, and manning the door. Amia Simon a senior was a student who was able to help at the event. "I offered to serve for Mrs. Haynes to lend a helping hand" she stated. Ashley Irizariy another senior also offered to help. "The food was really good, I enjoyed it."

She was not the only one to enjoy the massive amount of different foods just

about everyone there was rejoicing about how great everything tasted. A sophomore named Shaquira Schoolfield was one of the few hands on students who got to cook some of the food available at the buffet. She explained to me everything she helped with. "I helped to cook fried chicken, baked chicken, macaroni salad, salad, and noodles."

Those weren't the only foods in attendance though. There was tuna pasta salad, stew, chili, meat balls, baked ziti, string beans, all different sorts of pasta, rice, flan, chocolate cake, coconut cake, oreo cake, soda, juice, water, and so much more. Mrs. Haynes had to work hard to get everything in order of course with the help of students and when it was all over she became excited about the profit and how fun the whole event was. "I am so proud of how everything went, I had fun, and I think it went way better than planned." Not only was she proud but the man of the day Mr. Williams was also very proud.

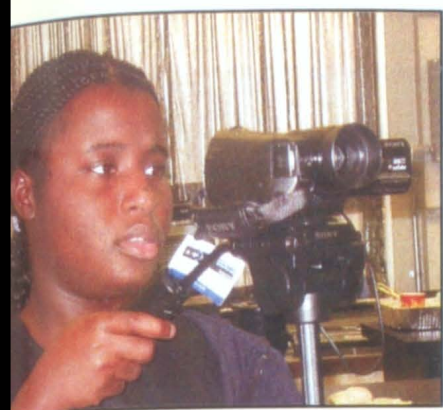

It has been a huge success and I look forward to doing it again, I did it to raise money for the students because for me it's all about the kids." "There was about 75 tickets sold and 60% of the staff donated items to the festivities. I'm happy because they all did the best they can."

-Mr. Will

INTERNATIONAL FOODS DAY

2010 Senior Prom

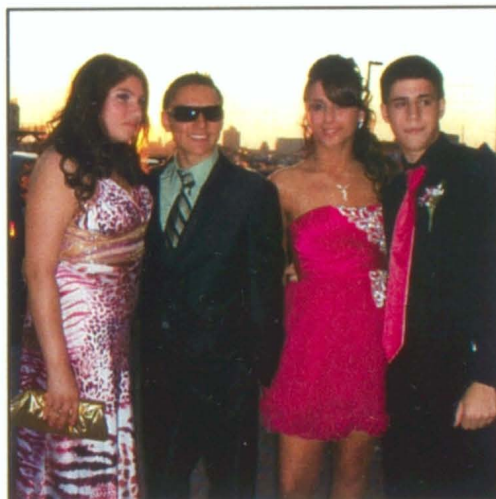

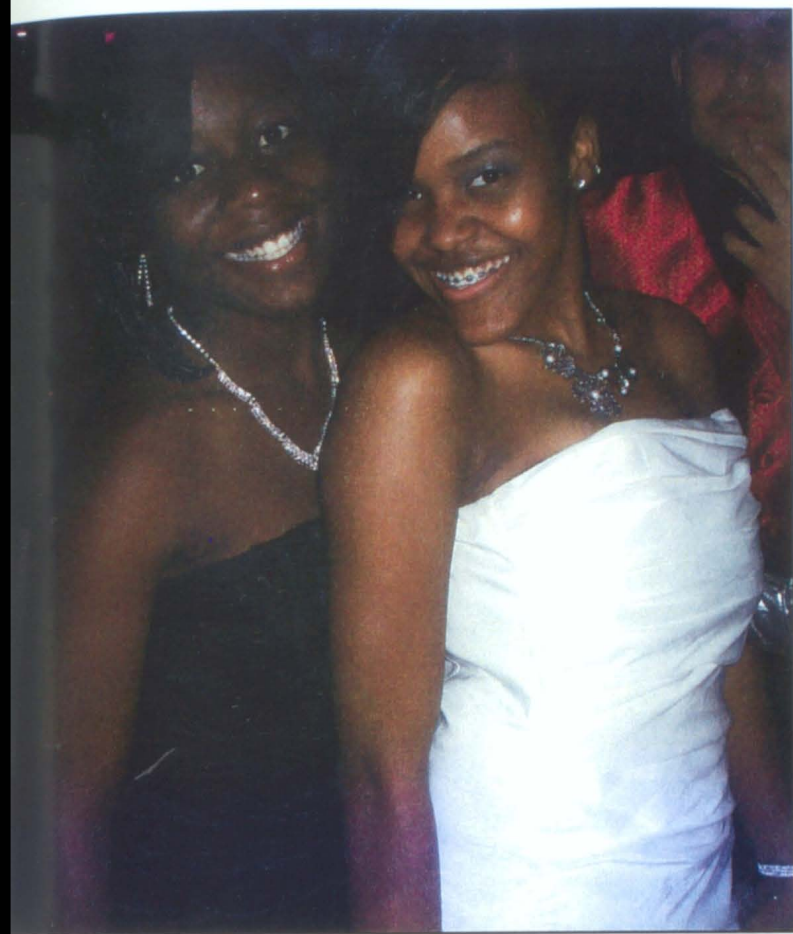

Prom season is in full swing and the Panthers are busting out. We all know prom is one of the biggest and most important times in a student's life because this is the time to just celebrate all the years of hard work in school. Some students stress out about prom as if it was their wedding day but others tend to remain calm. When I asked senior Shan Batson if he were excited about prom he stated "I'm not excited about prom because I'm not motivated to have fun." Although he isn't motivated to have fun he is still getting ready for the big night. He says "I got a date, I know where I'm going to get my tux, and all I need is a ride." Although he isn't too excited about prom he states "I'm looking forward to hanging out with my friends afterward."

Prom is not only a night of fun at the dance but the after parties are also a very big deal. Another senior Roseana Desouza dishes all the details on the senior prom. "It's going to take place at Liberty House in Jersey City, which is right next to the Statue of Liberty. We have a great view of Manhattan and get to experience the city life after prom." So far

it seems the senior's has every thing planned out even when it comes to rides because Roseana goes on to say that they are trying to get a big party bus that can fit 10-25 people and just about all the girls have their dresses. Basically they are just waiting for the big day to happen.

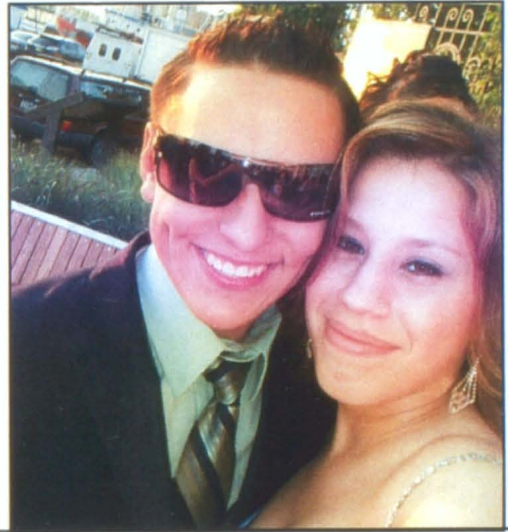

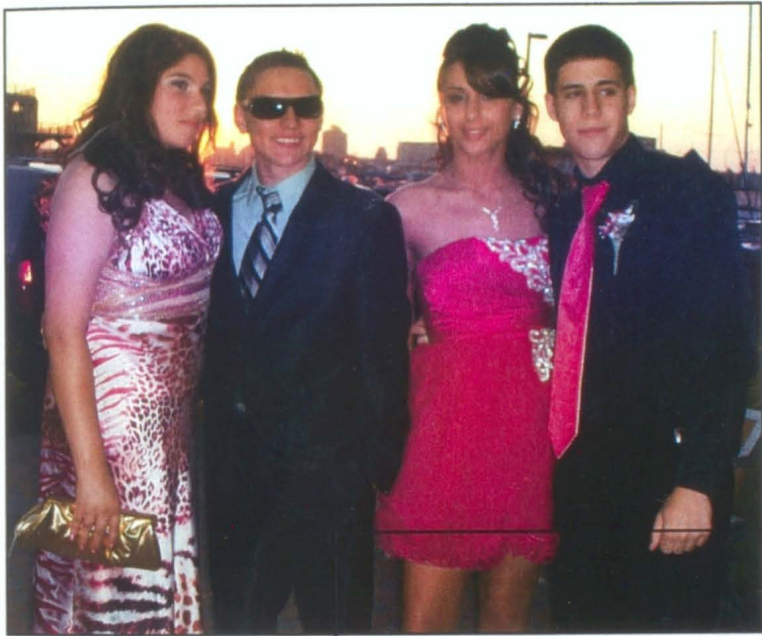

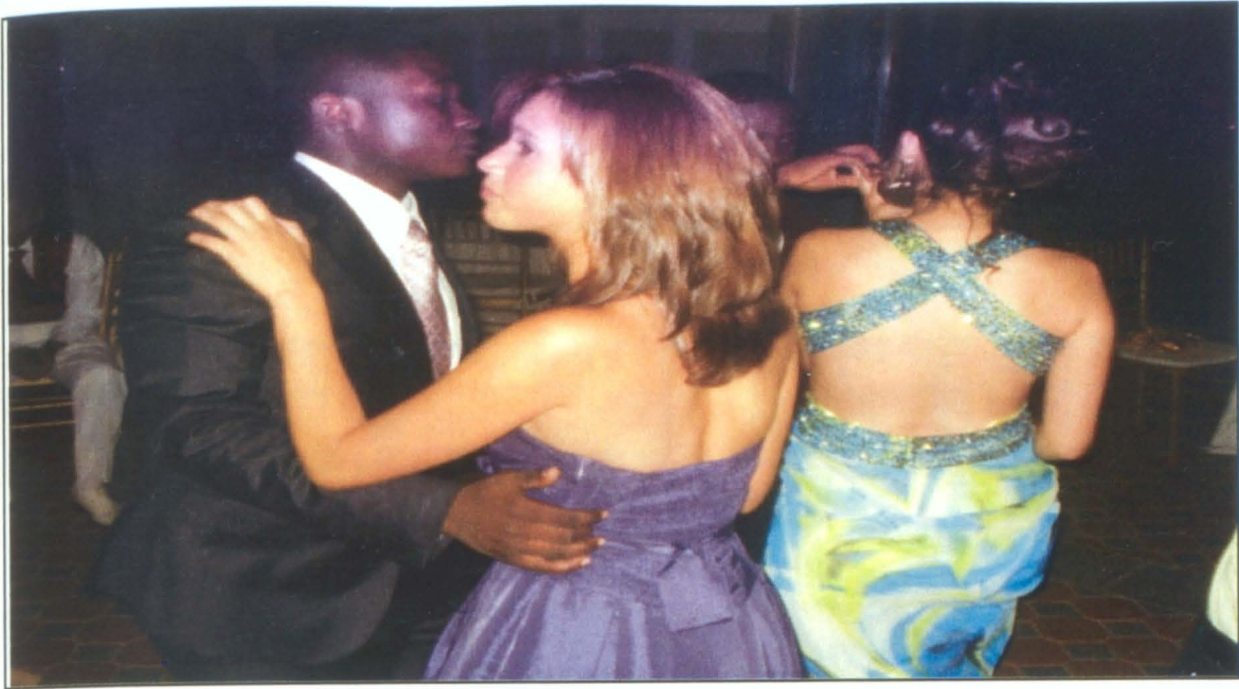

Senior Class Advisor Mrs. Haynes explains a few things about the prom as well; she tells that the senior class formed a prom committee. "The committee had a few seniors who met off and on through out the year to work on the theme, décor, the menu, and decorations for the prom." With the whole prom excitement there was still one question to ask. Was Mrs. Haynes preparing to go to prom? "I haven't prepared anything, I'm just going to throw on an outfit and go to prom" explains Mrs. Haynes. Even without preparing anything she still is very much excited. "I'm really excited about prom because kids are getting excited, and it will be so cool to see it all come together." Hopefully the senior prom was a success and we wish all of our seniors a wonderful prom and graduation.

2010 Senior Prom

DEFINE ME

The define me project, created by Mrs. Haynes Web Design and Development II class, was an experiment created to test whether a video resume was more effective, or in other words appealing than our traditional ideal resumes. The task was for the students to make two resumes, a traditional one, which only spoke about their achievements and interest, and a video one, which didn't only show their interests, but goals, creativity and personality.

While the traditional resume, only allowed students to show words, that to some may have no meaning, through the use of videos, music and graphics, the video resume allowed the students to actually show their interest, and portray the meaning of it. While on a traditional resume a student may write "I've played soccer", on a video resume you can show pictures and videos of you playing, and even the medals you have won because of it, this, the students found out, might be the difference between getting the job you wanted, or not.

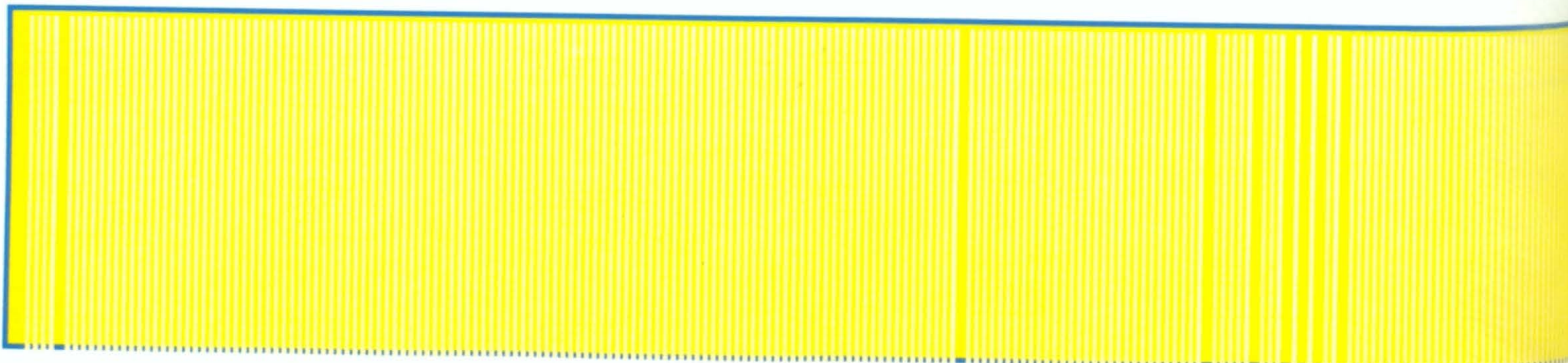

The Define Me Project did not only focus on writing resumes and comparing them, but also, above that, the purpose was to show your personality, and through it show what truly defines you. While some students

decided to base their videos on their academics, sports achievements and school work, others decided to base it on their lives and the most important things to them such as their family and friends among other interests.

This project also included a website, and in the end the different videos and resumes came together and became one presentation. The website created by each team, along with the videos was another factor that contributed to the goal of trying to be defined, since the information in it portrayed who you were. The different websites, although the videos were put together, separated each individual, and defined each as one.

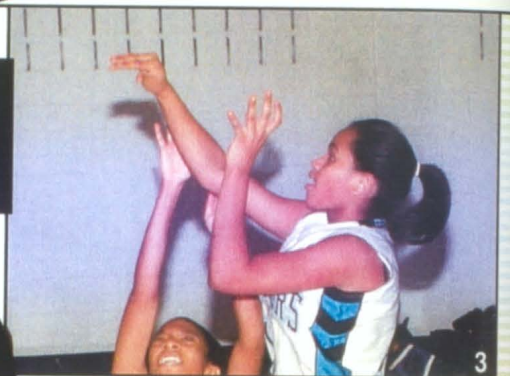

In the end, the project was so successful that other people were interested in it, and the class received an invitation to present it at NJIT and impressed the Dean of Visual and Graphic Arts at Kean University. In the end, we discovered that the development of technology is improving and making our lives easier, and a video resume, in the long run is more effective than a hand written traditional resume, and might be the difference between getting accepted in a college.

above Shorty got skills!

boys BASKETBALL.

The Boys Basketball team of Technology High School is full of buzzer-beating stories like these, and much more of teamwork and sacrifice. Basketball is much more than just a past-time for these young student-athletes, for them it could be a way into college, a hobby that never gets old or even a possible activity needed in their daily life.

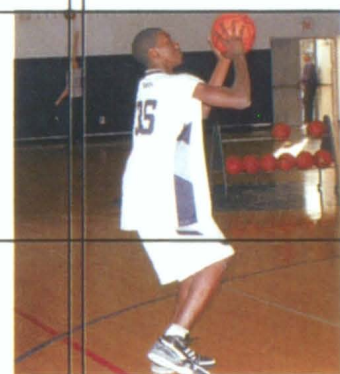

They might have started from when a very small age, or could have never made a shot until they have joined the team. These athletes know all the rules, so that they can bend the rules... to a certain extent. As elbows crash and fouls are called, through thick and thin, they stay together, to win

championships, but mainly to enjoy a good game of basketball.

Leading these rising stars is cool and laid back, Coach Bellani. Having plenty of experience with the game, he trains his athletes well not because he has to, but because he wants to see his players be the best that they can be. Even when the going gets rough, and the young athletes aren't feeling so hot, Coach Bellani doesn't give up. He pushes them hard and encourages them to play harder, which most of the time actually seems more difficult to do, but it is not impossible, since they know he only wants the best for them they pick up the pace and give all they have to offer.

team photo Mr. Bellani is captured with his team at a home game.

girls BASKETBALL

Over the past three years the Lady Panther Basketball team struggled to get to where they currently are today. The hard work and dedication from the selected few (11 girls) who stuck it out to the end. For the first time in Technology High School's girls basketball history the Lady Panthers made it to the states. Their current success wasn't just a one person kind of thing. Each and every girl on that team did something significant in which provided what the girls needed to achieve success.

Coach Meredith Foote gave a little message to her girls, " I have experienced three years with my senior players Rae've n, Shanna, Roselis, Christina, and Chantel.

I love you all. Individually you all are incredible young women who have a bright future ahead of you and I have no doubt that you girls will be successful in college and beyond. It was a privilege working with you girls and I will miss you all. Remember that I will always be here for you as your mentor. "

Ms. Foote is really looking forward to next season. The leaders of the team will be Juniors Bianca Tucker, Jasmine Wright, and Asya Hart. Sophomore Shikey Bullock, and freshman Patricia Dennis a.k.a Butter, and Idaliss Rivera. Those six girls have big shoes to fill. When it comes time to play the alumni game they will definitely be ready!

boys BASEBALL.

The Varsity Boys Baseball squad beat Rival Barringer High School for the first time in school history. Senior and captain Adalberto Carlo made the final out chasing down Gabriel Lopez (a former student of Technology) and pitched three innings for the win. He also had 10 strike outs in the first round of the NPS tournament.

The Boys baseball team had a tough season this year, but that didn't stop them from getting on that bus everyday

at 2:50 sharp. We are looking forward to hearing good news next season from our panthers.

Stats

Danny Silva- .335 10 RBI's (4.85 ERA)

Jose Gonzalez- .340 18 RBI's (5.85 ERA)

Adalberto Carlo- .270 9 RBI's (4.45 ERA)

Nate Carlo- .313 20 RBI's

Jonathan Greck .358 13 RBI's (3.89 ERA)

above Coach huddles with the team for a quick pep talk.

girls SOFTBALL.

What does it take to make a team? Technology High School Lady Panthers showed this year what a team was. As the season went on, they went from being a team to a family. The chemistry the team has with one another is as strong as ever. The past few years have been hard, but this season the team ended with a record of 10 wins and 5 losses. For the first time in five years, the Lady Panthers made it to the states, ranking

at number five. They are currently losing three of their players, one of which is their very own captain, Roselis Genao, also known as "Selys." Roselis has done her best as their captain and catcher. The ladies are told that they are a student before and athlete and Selys has proven that she can manage both school work and softball. She will definitely be missed.

OUTDOOR TRACK

When you turn to the sports section in the newspaper, what do you first see? Besides the common sports teams such as soccer, basketball, tennis, baseball, and softball, one of the most secluded sport teams is outdoor track. For some reason people get the impression that outdoor track isn't the most captivating and exciting sport offered because people believe it's just running. However, let me let you in on a little secret, did you know that track and field is more than just running? It's hurdles, javelin, discus, pole vault, and much more!

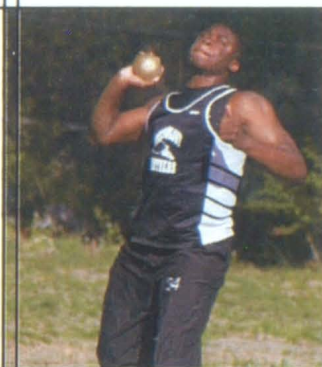

The best thing about track is that it allows our athletes to meet other schools besides just one. The athletes immerse themselves with different races and cultures all in one meet and race. In one standard 100 meter sprint,

there will be eight sprinters running against each other, but at the end of the day they grow to know each other throughout the entire season. Sprinter Katherine Hernandez said, "Although your competing with other schools, you get to meet other athletes make friends. In fact, I have kept in close touch with one of Arts best sprinters, Ashley." As you can see track and field can begin the start of a beautiful friendship.

Remember track is more than running. Track and field is pushing yourself to the limit. It's a commitment to do what you love and enjoy, as well as sharing a special experience with others. So join track today to experience something that's just more than running.

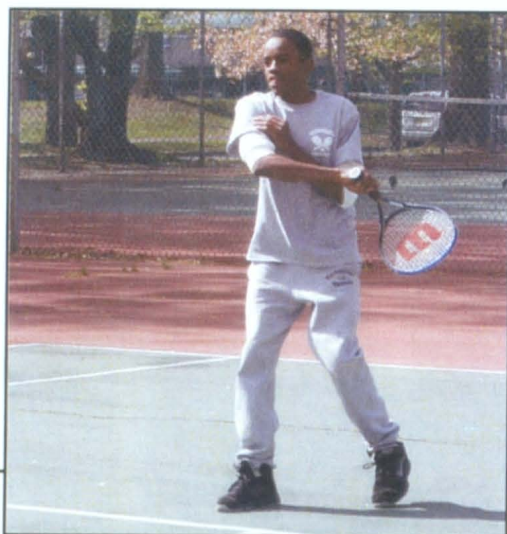

team photo The team takes a rest to take this beautiful picture.-

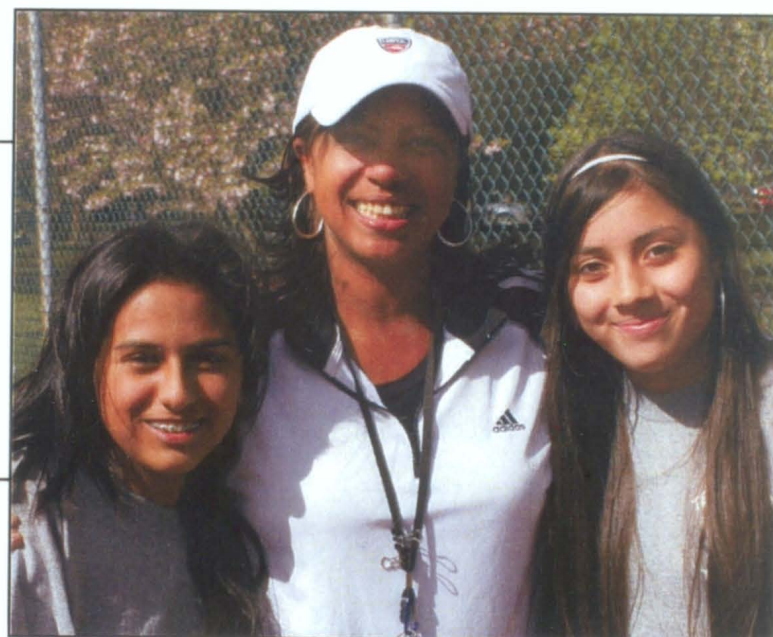

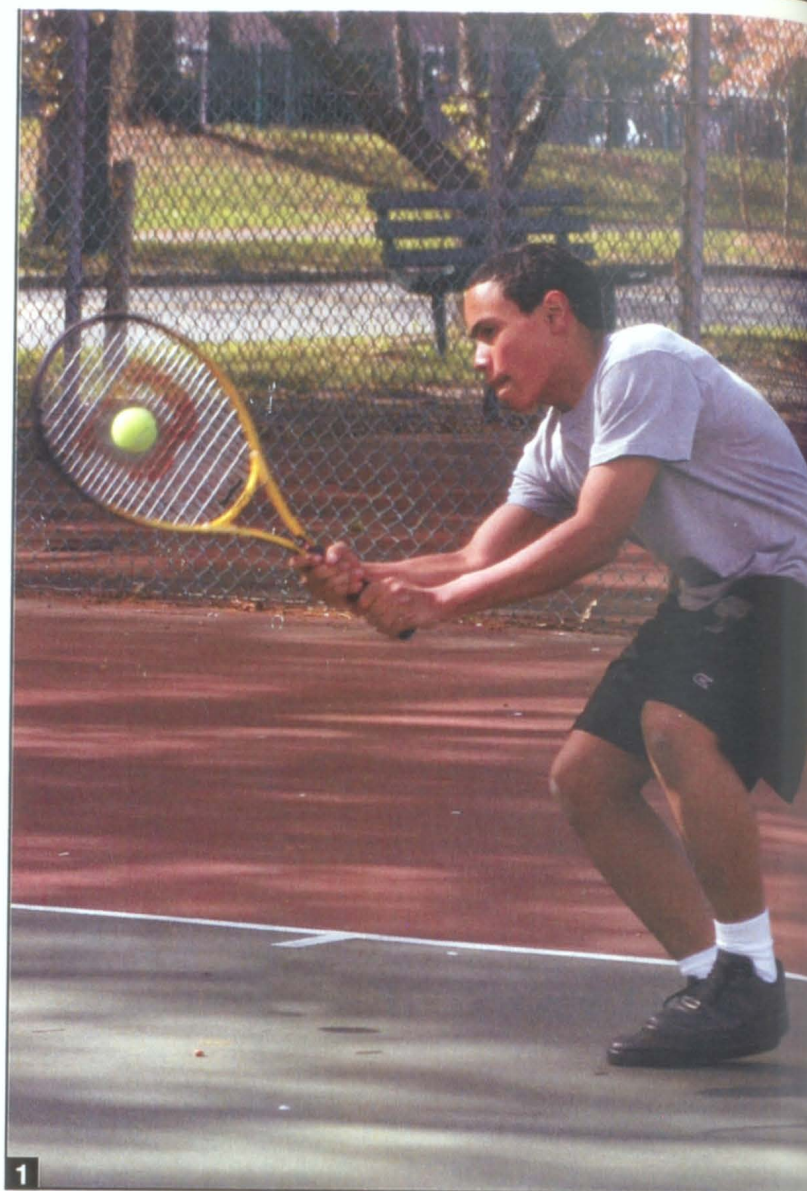

right The perfect stance.

below Memorial tennis moments.

above Senior Shane Batson gets ready to hit the ball.

above Coach Wilson poses with the team managers.

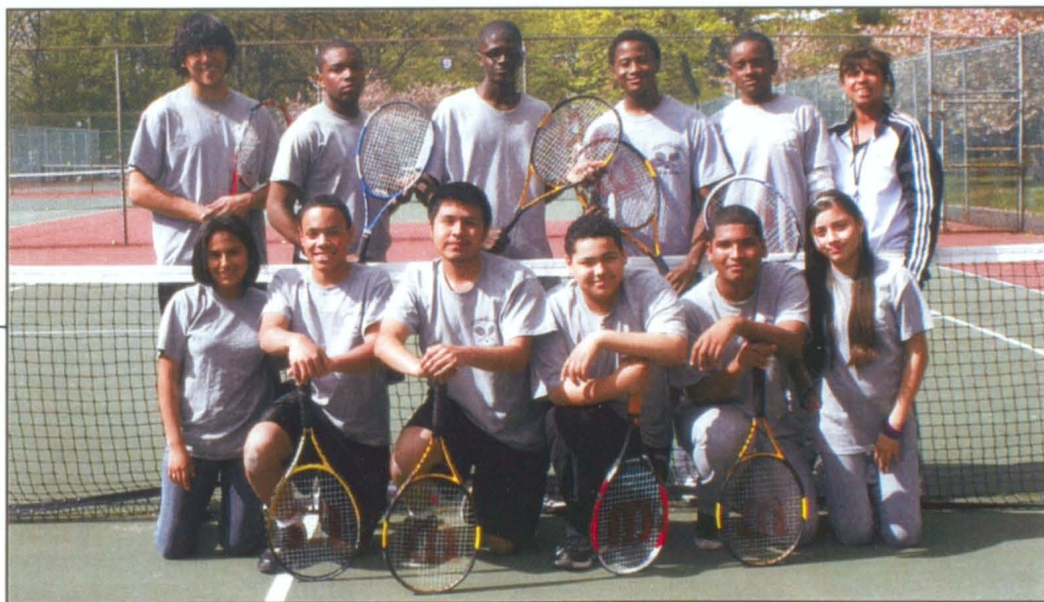

boys TENNIS

Imagine yourself in a tennis court on a bright sunny day. The bystanders and spectators who watch are all quiet. You are down by one point while the opponent is about to serve the ball thinking that victory is within his reach. He throws the ball up and smacks it with such a force that the sound echoes through the trees. The ball is speeding at your side of the court, too fast for you to think. Your instincts from training tell you to bring your racket back and swing at the ball from waist and through to the shoulder. As the ball makes contact with your racket, you hear "WHAM!" and you are in a power struggle to strike the ball back over the net. You immediately find the strength needed send the ball back over the net and assume your ready position waiting for a chance for your opponent to miss

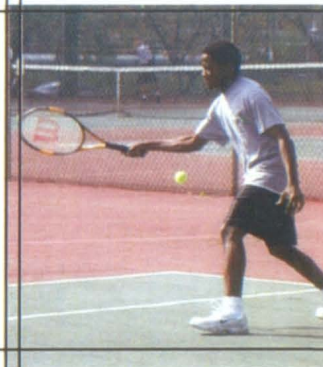

and opportunity to return your hits.

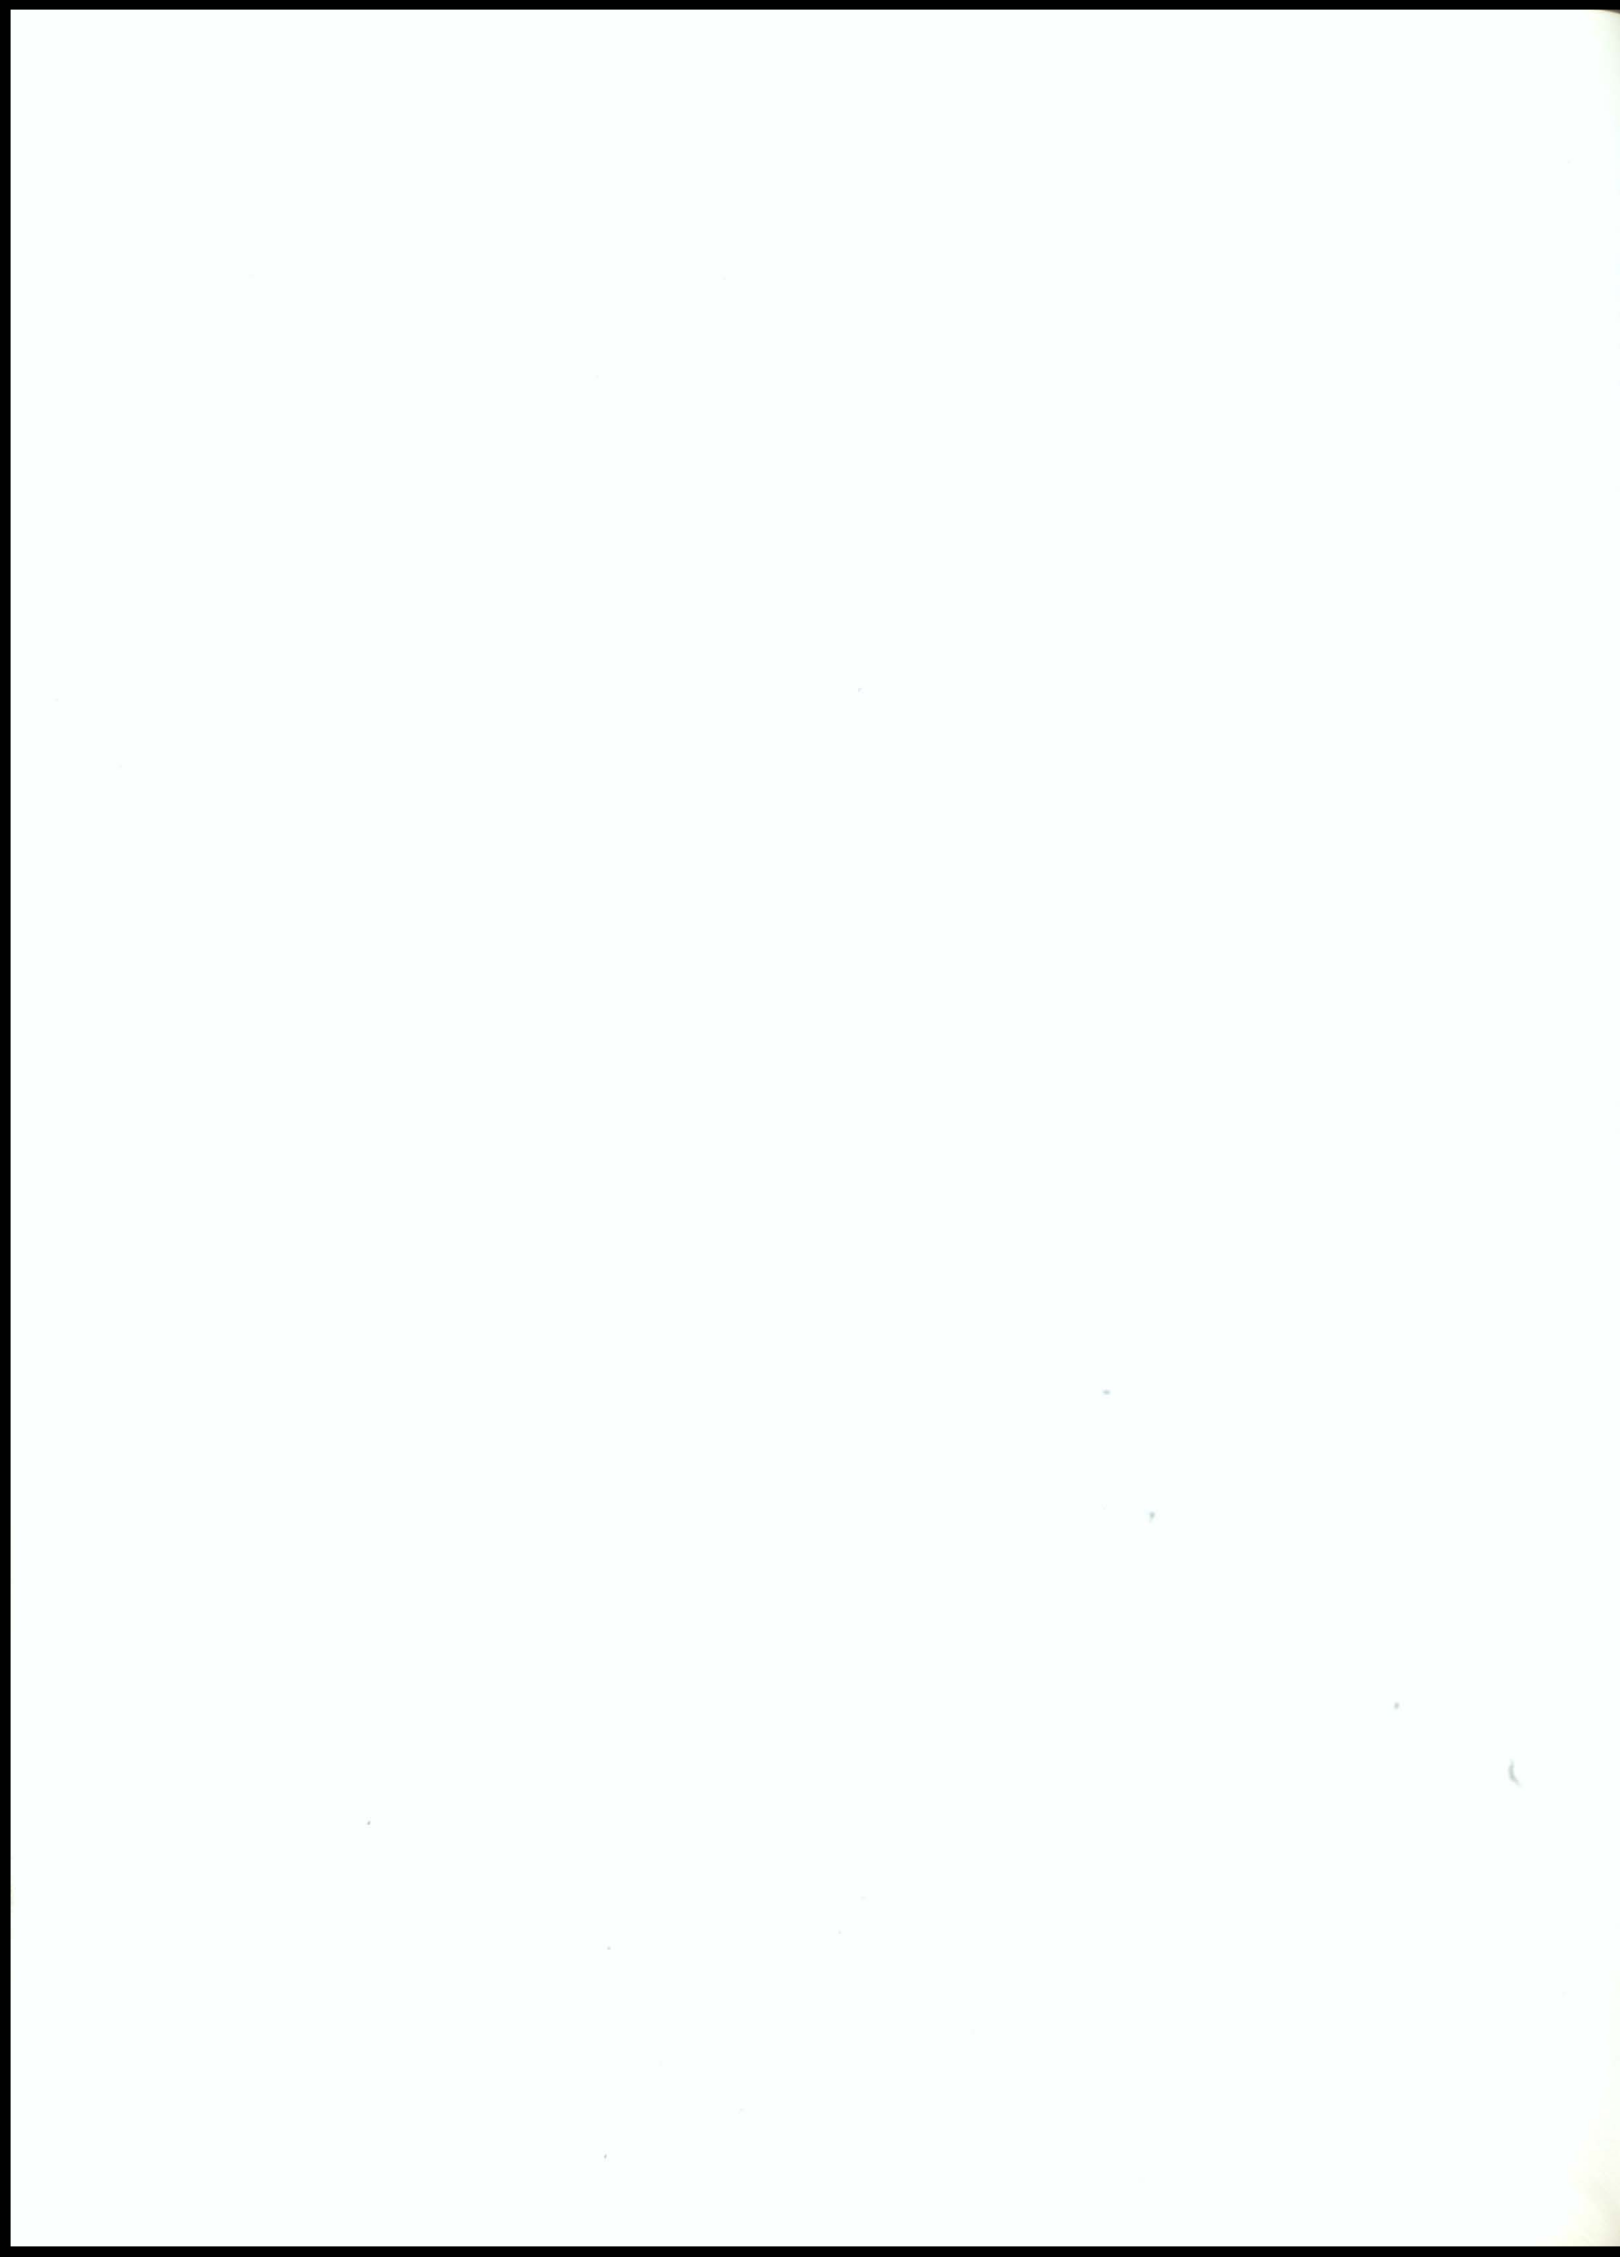

This is a literal example of what the players on the Boy's Tennis Team had gone through this season. This year, the boy's tennis team was set in a different division, being able to play more schools, including some from our home, Newark. Armed with new members and equipment, the tennis team worked hard to establish themselves as a force to be reckoned.

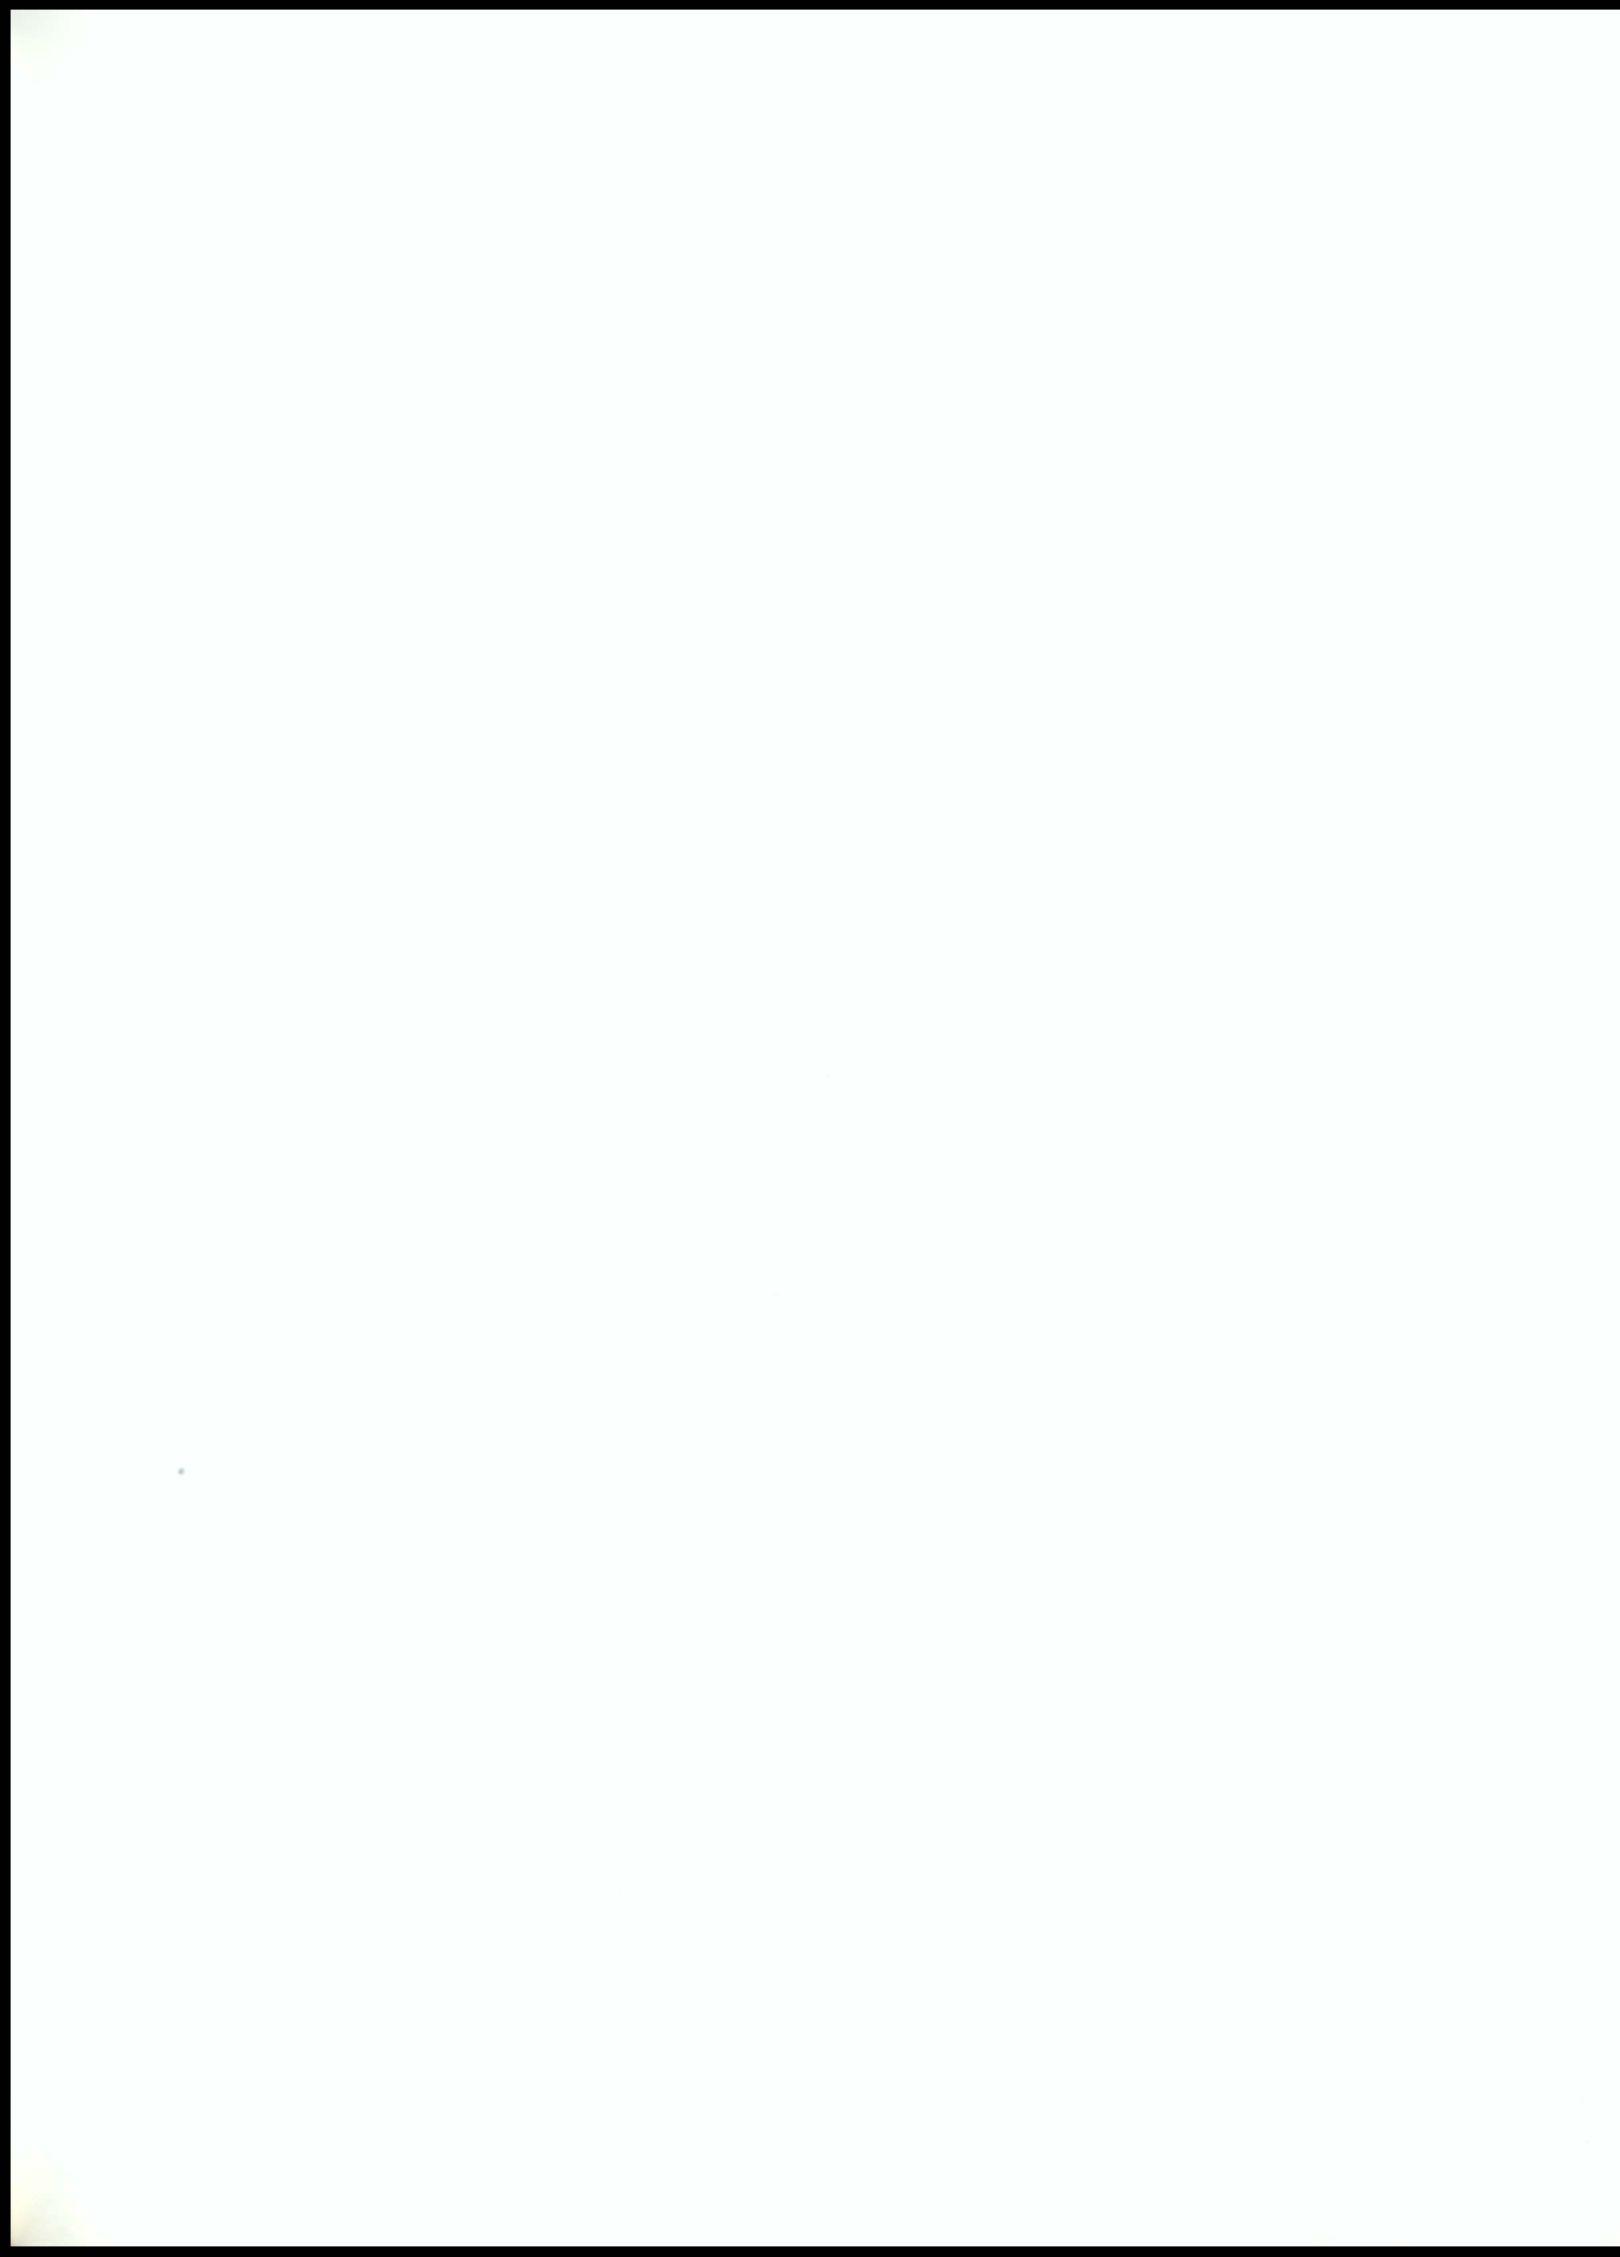

Leading this team is charismatic leader and Coach Ms. V. Wilson. Coach Wilson has been coaching the team for "blank" years now and very good at it. This year she whipped the team into shape in order battle the other schools and earn a place for her young Panthers in the district tournament.

team photo Mrs. Wilson poses with her players and the managers.

Mona Dana
Principal

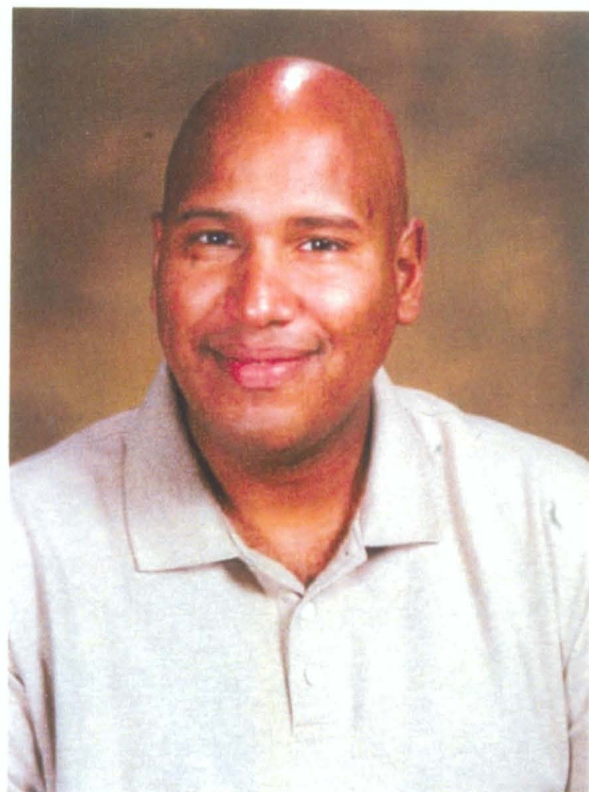

Dear Graduates,

Congratulations to the Class of 2010. It is my sincere wish that you never forget the pride that you brought to our school, to yourselves, and to your families. Good luck and may all your wishes come true.

Edwin Reyes
Vice Principal

Dear Graduates,

I would like to congratulate the Class of 2010 on the successful completion of your high school education. I am extremely proud of your accomplishments and dedication. May your lives be filled with success and, more importantly, happiness and health.

CLASS OF 2013

Freshmen

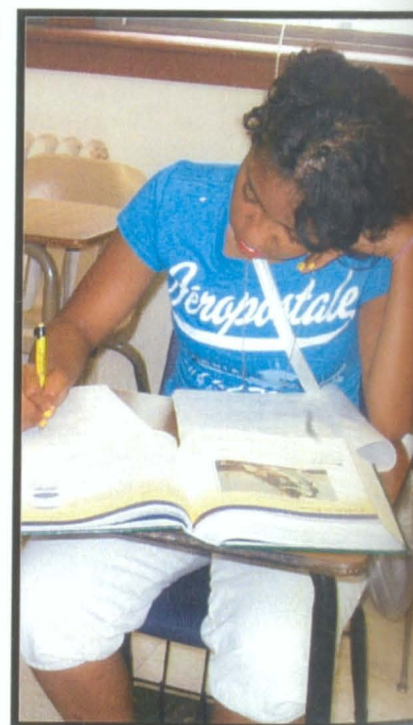

High school ■ nothing like elementary for sure! The freshmen ■ taken from their ■ lives and thrown ■ a whole new spectrum called "High ■". They barely knew anyone and weren't ■ sure what to do, or what halls to walk down. Of course ■ the year went on they became more engaged ■ met ■ people and ■ whole nine yards. ■ though things got easier for our freshmen as ■ year dwindled ■ but the yearbook ■ wanted to know "How was your freshmen year?" So we asked a well-known freshmen Khadijah ■. "My freshmen year was great, I got to experience a lot of ■ and I had fun the ■ way." Well we hope the freshmen have gotten used to the ■ school life.

The freshmen have worked hard this year hopefully they can keep it up.

Class of 2012 Sophomores

2012

The sophomores had a fantastic this year. Not only they win the penny wars meaning all money collected went their class also more sophomores getting honor roll better grades. last year were just freshmen lost dazzled by the whole new of high school, now they one step closer to graduating and moving in life. Though still remain immature, the maturity of these soon to be juniors risen immensely. Sophomore Jenice told us her thoughts about the next years "The world isn't going to end in 2012, we just taking over." Well we will have wait and.

Class of 2011 Juniors

MAKING STRIDES

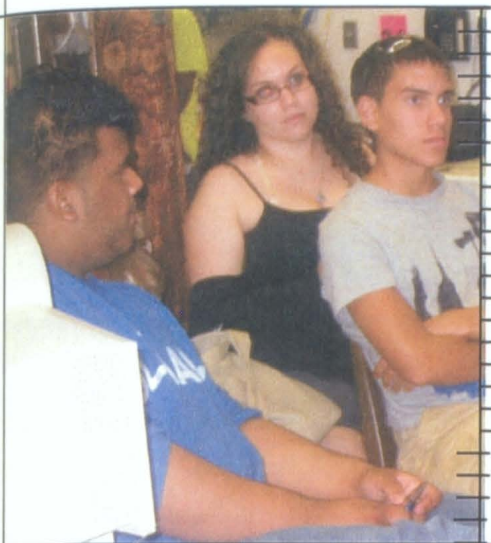

Class of 2011 has come a long way since first steps here Technology School. The juniors unlike any that this school seen before. There have been challenges to overcome, all being difficult, but juniors did not complain tackled each one head on with spirits and determination. Things have changed this, including less parties, and trips, but the juniors did not let that bring down and continued to spread their influential attitudes across school.

Some loud, some quiet, some hard working diligent, while others their time to the goal. Either way, the juniors all do more than just reach goals, they shoot for the stars and even beyond! The juniors are not taken lightly, especially they have been coming in Second place or higher in each Spirit competition since 2007! The are one of a kind! So when you see them, give them a chant of, "O'11!!!"

*Live life fully while you're here experience
Everything. Take care of yourself and your friends.
Have fun, be crazy, and be weird. Go out and screw
Up! You're going to anyway so you might as well
Enjoy the process. Take the opportunity to learn
from your mistakes. Find the cause of your problem and
Eliminate it. Don't try to be perfect, just be an excellent
Example of being human* *Anthony Robbins*

Love Always, Hilda, Anthony & Dimitris

My Special Daughter

A It takes many special qualities to make a
S Daughter like you, A lot of care & kindness &
h Understanding, too... It takes a special kind of
l Love that seems to know no end & the thought-
e fullness & patience of a true & trusted friend...
y It takes many special qualities to make a
Daughter like you, & that's why you are loved
So much today & all the years through.

Love Always, *Kevin* (Dad)

Ashley Irizarry

I've known you since the age of four and have
had the pleasure to see you grow-up to be a
beautiful young lady. I am
very proud of you and my
advice to you is to always
shine . . .

Pursue your goals, yet keep
your loved ones close as you make use of your
talent and ambition. Always remember you have
my support in every way. You can trust and talk
to me about anything . . .

This is only the beginning of a long journey.
Life has many ups and downs but I have
confidence in you. I believe you'll master every
challenging transition. Know
that the most important
belongings are respect,
honesty, and the desire to
make a difference . . .

Keep **God** as your guidance and remain a Leader
not a Follower. Congratulations,
Love always Irma

Ashley Irizarry, over the past

50+ years I have watched you grow and mature to
An amazing young lady. Your dedication and
Determination in your future endeavor is to be
Admired. I am so proud of you and can only
Hope that when *Aracela* grows up she will shine
The way that you have shined. I love you and will
Always be here for you

Love, Mrs. Brites

Bright Future

*Now that you've graduated
Nothing can stop you now.
You've worked hard to get your diploma;
It's time to take a bow.
Congratulations graduate!
Your future looks strong and bright.
May you achieve the things you hope for
And have a life of sheer delight.*

By Joanna Fuchs

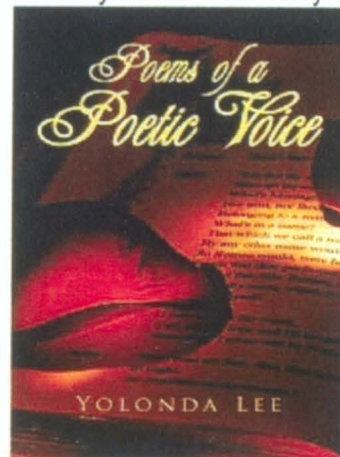

Congratulations, Patricia Barry

Ashley Irizarry

Congratulations Lee-Lee!! You're my youngest daughter and I am so proud that you have made it this far. With my prayers and God's grace you made it to the end! I love you. Continue to make mommy proud! This is only the beginning of your success and I know you have the power to be the best at whatever you want to be. Even though you're leaving me to go off to college, you are forever my "Homie!"

Mommy Loves You Neicy!!!

Ashley !

As I Watch You Grow

Do you know how much you mean to me?
 As you grow into what you will be.
 You came from within, from just beneath my heart
 It's there you'll always be though your own life will now start.
 You're growing so fast it sends me awlirl,
 With misty eye I ask, where's my little girl?
 I knew sometimes to you I seem harsh and so unfair,
 But one day you will see, I taught you well because I care.
 The next few years will so quickly fly,
 With laughter and joy, mixed with a few tears to cry.
 As you begin your growth to womanhood, this fact you must know,
 You'll always be my source of pride, no matter where you go.
 You must stand up tall and proud, within you feel no fear,
 For all your dreams and goals, sit before you very near.
 With God's love in your heart and the world by its tail,
 You'll always be my winner, and victory will prevail.
 For you this poem was written, with help from above,
 To tell you in a rhythm of your Mother's heartfelt Love!

By Kay Theese

Love, Mom

(Ivette Frizarry)

Congratulations' P! I'm so proud of you. Continue to follow in my
footsteps!!! LOL.

Love you Shalisa - Shay, your big sis

Shalisa, you couldn't have a made a father any more proud than
you made me.

Love Richard, Tammy, and Chastiti

Travel the main roads.

Keep aware of the side roads.

If you have to detour to get to your
destination, it's ok.

If needed seek use GPS to get back to
the main road.

Your destination is your main goal.

I can be your GPS.

I am proud of you and wish you the
best.

-Love Aunt Leslie

The homies I've met, loved, and will never forget...

-Neicy Eff. TM always and forevr <X3

01/15/2005

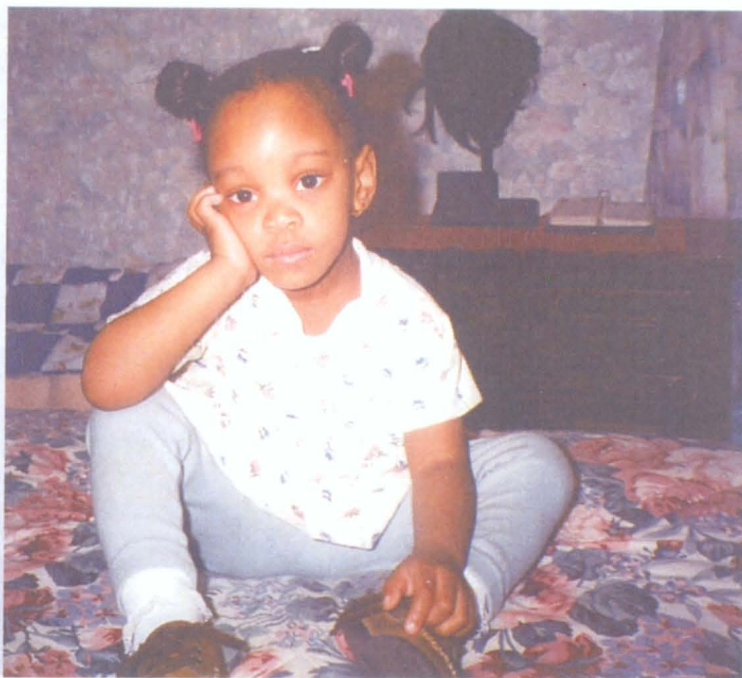

To my lovely daughter,

I'm so proud of you, you made it through high school. Now you're on your way to the second chapter. I know without a doubt you will continue to soar, reach for the best, don't settle for less, you're my princess.

Dear Chantel,

I am so pleased with the choices you have made to arrive to this point in your life. I enjoyed watching you grow up to be a bright, self-motivated young lady. You always been the one to accept challenges, you can achieve any goals that you pursue so continue to excel. I love you the world is yours go get it.

Chaney, our baby sis,

We are so proud to see our little sister develop into a mature, responsible, and very intelligent young lady. We wish you well and much success in all of your endeavors. May God continue to shine on you.

Love, Terrell, Wayne, Omar, and Jeremy

I'm Sunshine & She's My Joi

From the moment I found out about the pregnancy, I told my sister this one is my baby. She responded "yeah-right just like the other four until they turn one years old." I said "No really, like me it is the last of the liter soo this one I'll keep." After a few weeks I told my sister "you are having a girl & her name is Joi'Angelique." She patronized me until she came home with Christine Angelique. I told her I didn't care what the birth certificate says this baby's name is Joi. Where ever I went she went. While in class at Bloomfield College she would sit, read, & be entertained by my now husband with the librarians at the school. Now 17 years later she was and still is my Joi. Even though she feels too grown to hang out with her youngest old Auntie. I love her like my own.

Joi, whether you are a doctor, lawyer, or consultant, we are all proud of you. Keep up the good work, but always be happy and enjoy life as much as you can until it hurts.

Love, Auntie D.

To Christina - Congrats!!

Although you are the youngest you act like the oldest and I love you for that. Without you my life would not be where it is. Just know in your heart that I will always be here for you no matter what. Stay strong and be happy. Good luck in whatever it is that you pursue.

Love always Mom.

To my favorite neice, I am so proud of you. Keep up the excellent work and strive for the best. Hard work pays off. May you reach your goals and may all of your dreams come true.

-Uncle Tony

Congratulations Christina

Good Luck Christina
from the
Telecomm
Class of 2010

Congrats to my girl.
We will definitely
miss you Chrissy.
Keep up the good
work!

-R. Taylor

Congrats to my
neice. Keep up the
good work and don't
stop 'til you get to
the top.

-Uncle Duane

Congratulations and
Best Wishes and may
God continue to bless
you.

-Love Pop

Congratulations Christina
and the
Graduating Class of 2010

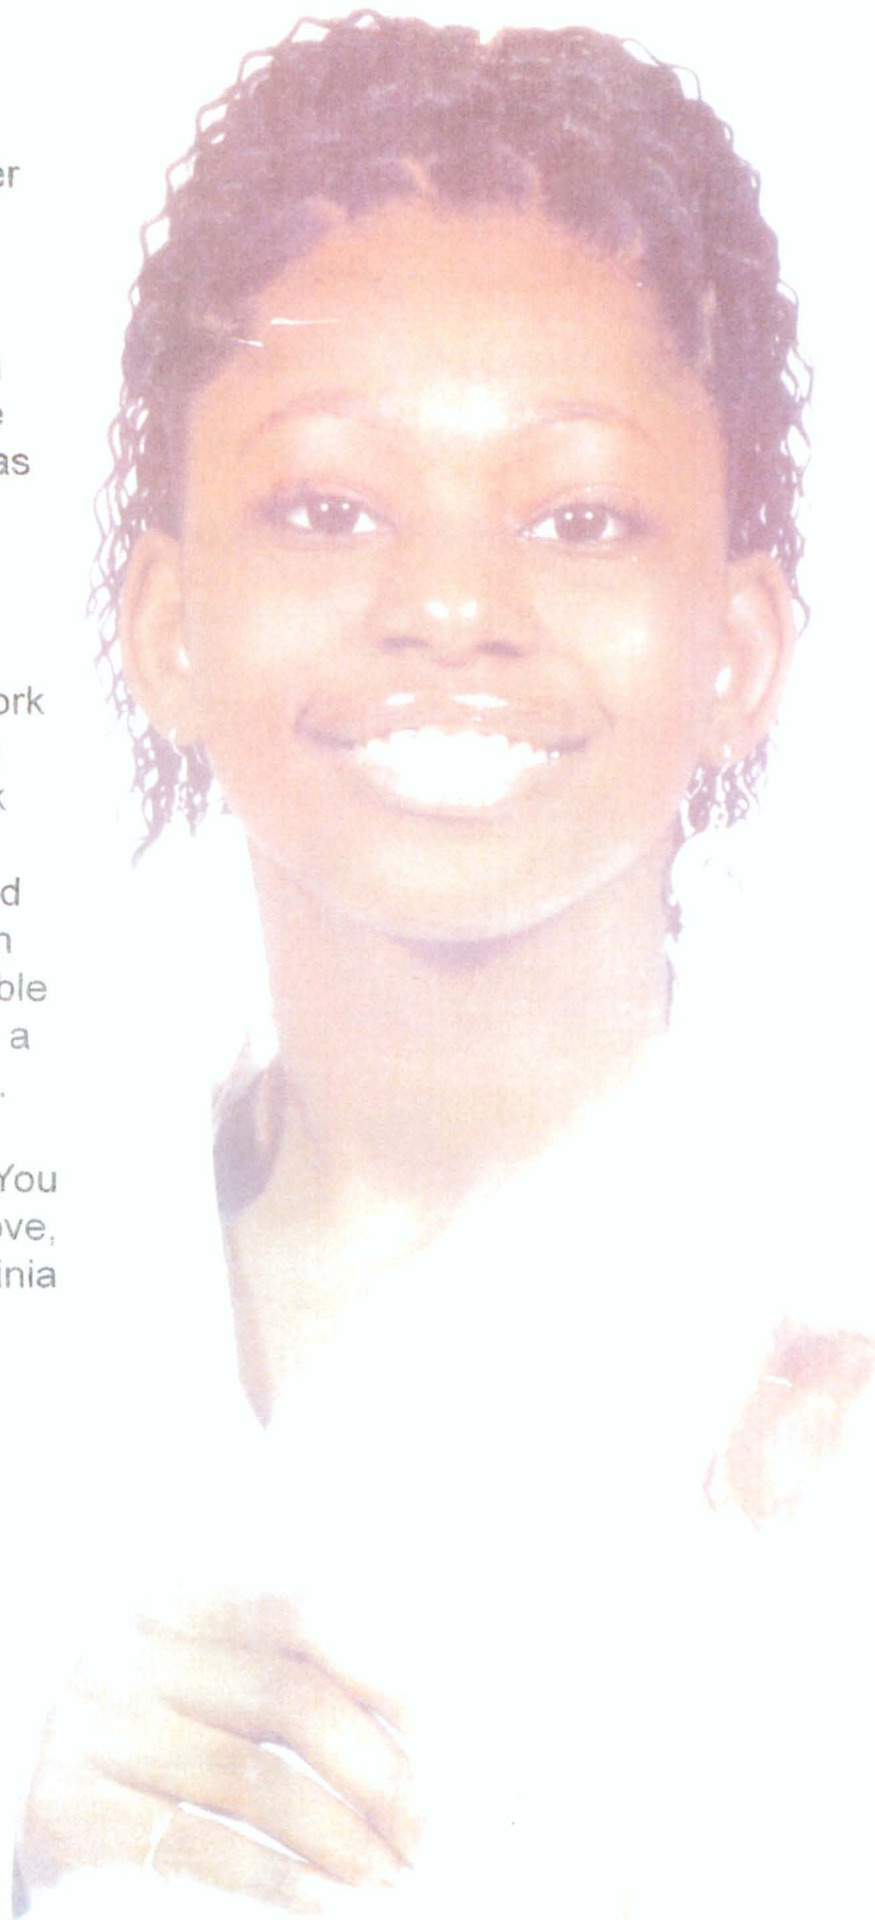

To My Granddaughter
Joi known as
Christine Wray,

Congratulations on a
job well done, you've
blown my mind and as
you know that is not
easily done. I am so
proud of you.

Keep up the good work
little girl and don't be
too fast. Always think
first, act second and
always believe in God
because through Him
ALL things are possible
and I believe He has a
grand design for you.

God Bless You
Love,
Grandma Virginia

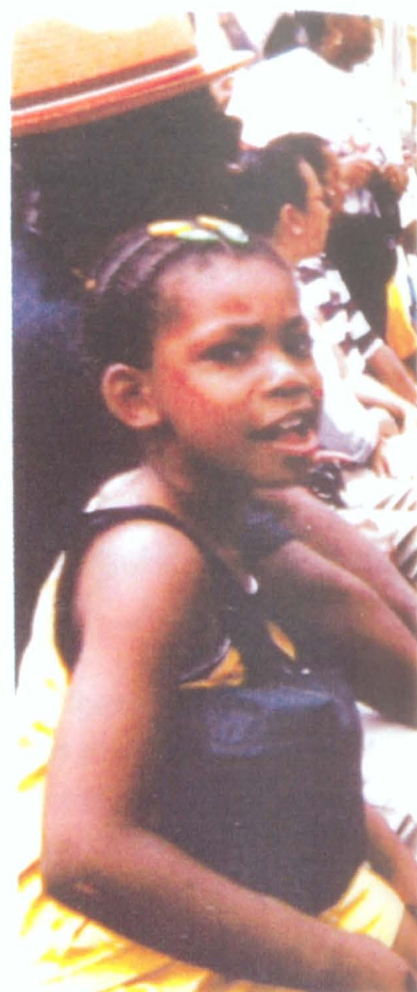

Christine,

*I am so proud of your
accomplishments. When
you put your mind to
it anything is possible.
Reach for the stars.*

*Love You,
Auntie May May*

Christina,

I am very proud of you.
You've blossomed into an
intelligent and mature young
lady beyond your years. You
never cease to amaze me.
Good luck in college and
remember I gotcha back.
You're the best daughter a
father could have.

Love always,
Dad

To My Nephew Kylin,

May your life be filled with many wonderful endeavors and your disappointments be few. Kylin you have brought so much joy to my life and I'm so very proud of you. Because of your hard work you have accomplished so much. Your personality brings out the best in the hearts of everyone who encounters your presence. The times we spend together are and will always be precious to me. Kylin keep on doing the positive things that you do and I know you won't let anything stop you from reaching the top.

Love Always,
Aunt Carol

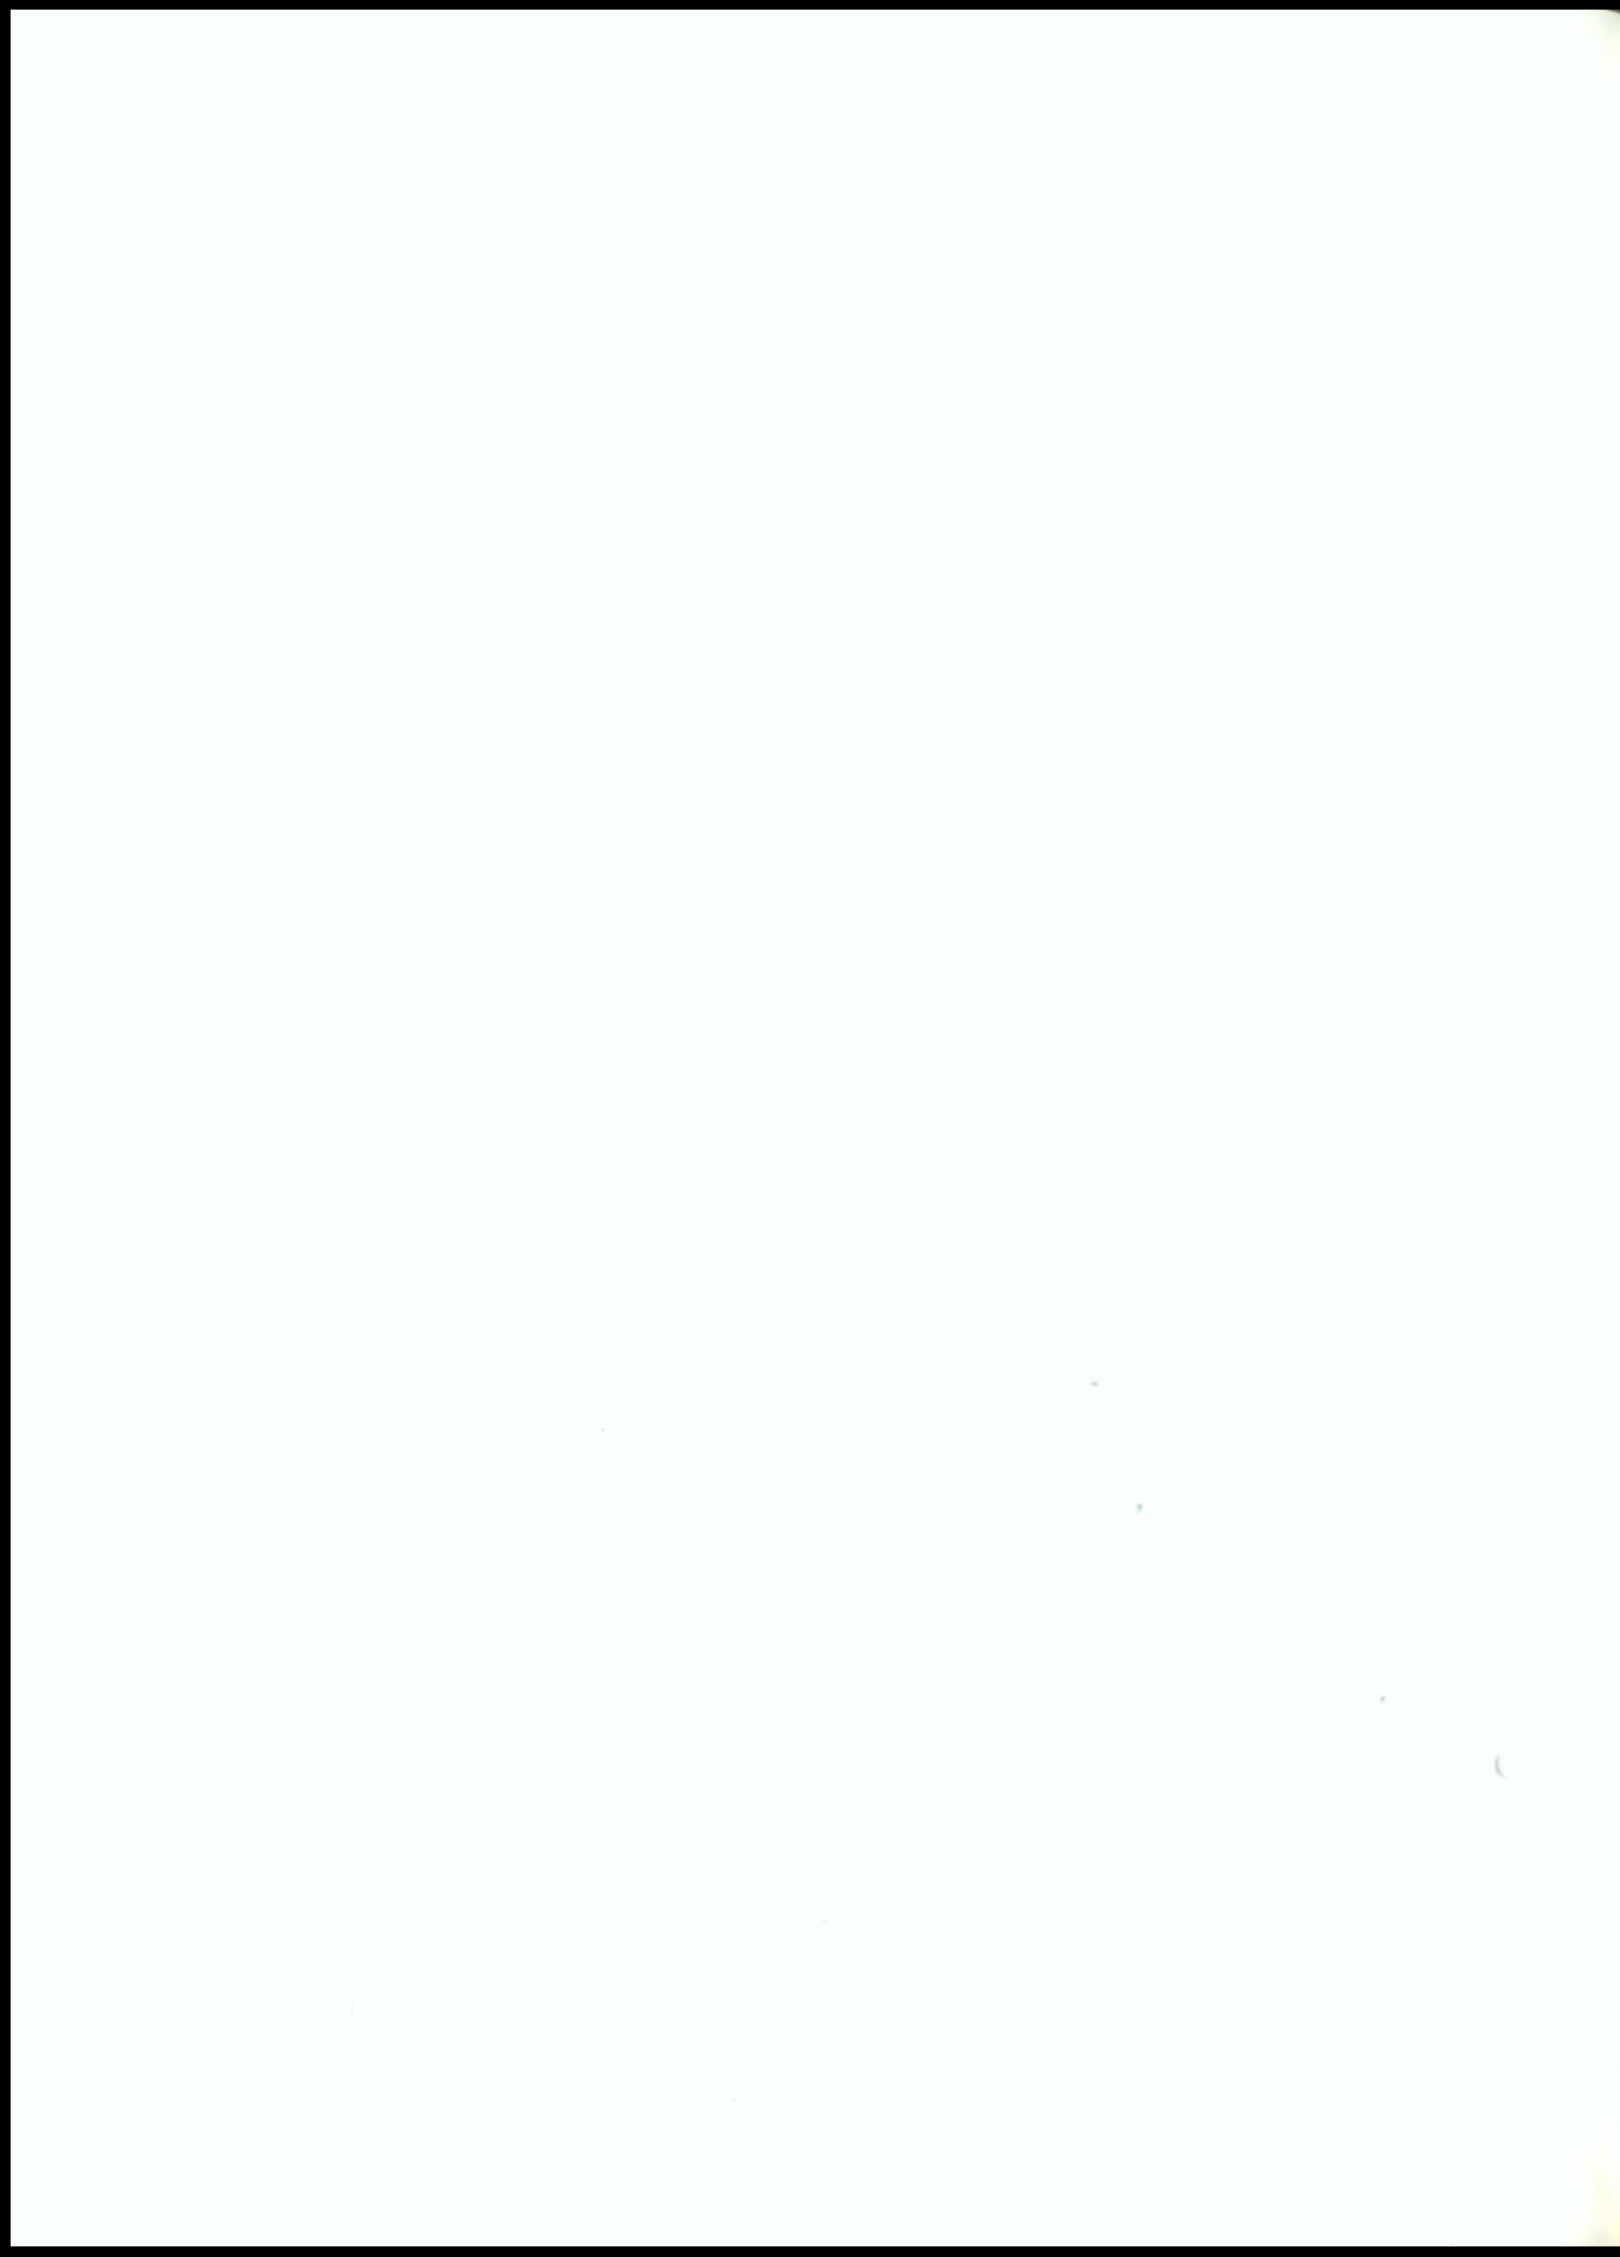

We would like to
congratulate you Joel
for this accomplishment.
We are proud of you
and know that you will
succeed in all that you
do!

With Love,
Your Family

*Congratulations
to the
Class of 2010*

From the Yearbook Staff

Kylin,

Look how far God has brought you from
Incubator to High School Graduate.

Congratulations and may God continue to
bless you in your future endeavors.

We are so very proud of you.

Love,
Mom & Dad

Young woman, my daughter,
my joy and my heart,
You've reached the end
only to find a new start.
The world sees the young woman
with her charm and her smile,
but behind the young woman,
I will always see my child.

I Love You, Mommy

It was only yesterday when we gave you the talk...

Making sure you knew how to wear your heart.

Whether you need a shirt (lol), or dryer for your hair...

You know that somehow, we will always be there.

Your journey is far, but not too difficult to reach...

Trust in God always first, and practice what you preach..

Know how to tear the negatives and destructive criticism apart...

You are always just a moment between both of our big hearts.

Best Wishes, Mommy and Kyle

How do you know when you mean to me?

As you grow into what you will be.

You came from within, from just beneath my heart

it's there you'll always be though your own life will now start.

You're growing so fast it sends me awirl!

With misty eyes I ask, Where's my little girl?

I know sometimes to you I seem harsh and so unfair,

But one day you will see, I taught you well because I care.

The next few years will so quickly fly,

With laughter and joy, mixed with a few tears to cry.

As you begin your growth to womanhood, this fact you must know.

You'll always be my source of pride, no matter where you go.

You must stand up tall and proud, within you feel no fear,

For all you dreams and goals, sit before you very near.

With God's love in your heart and the world by its tail,

You'll always be my winner, and victory will prevail.

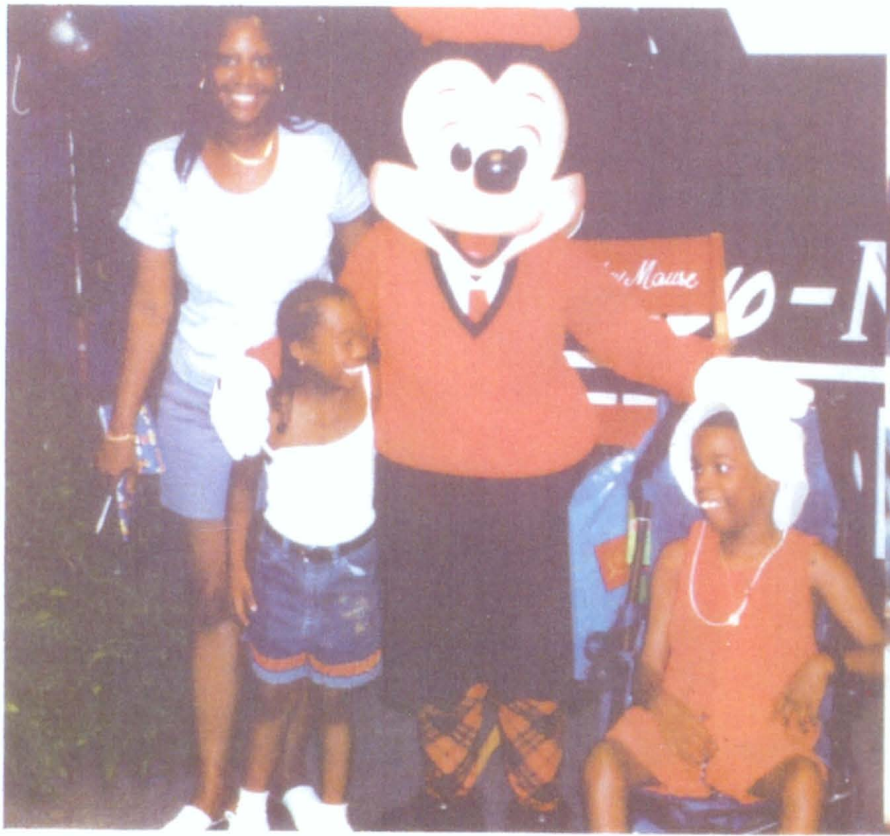

For you this poem was written, with help from above,

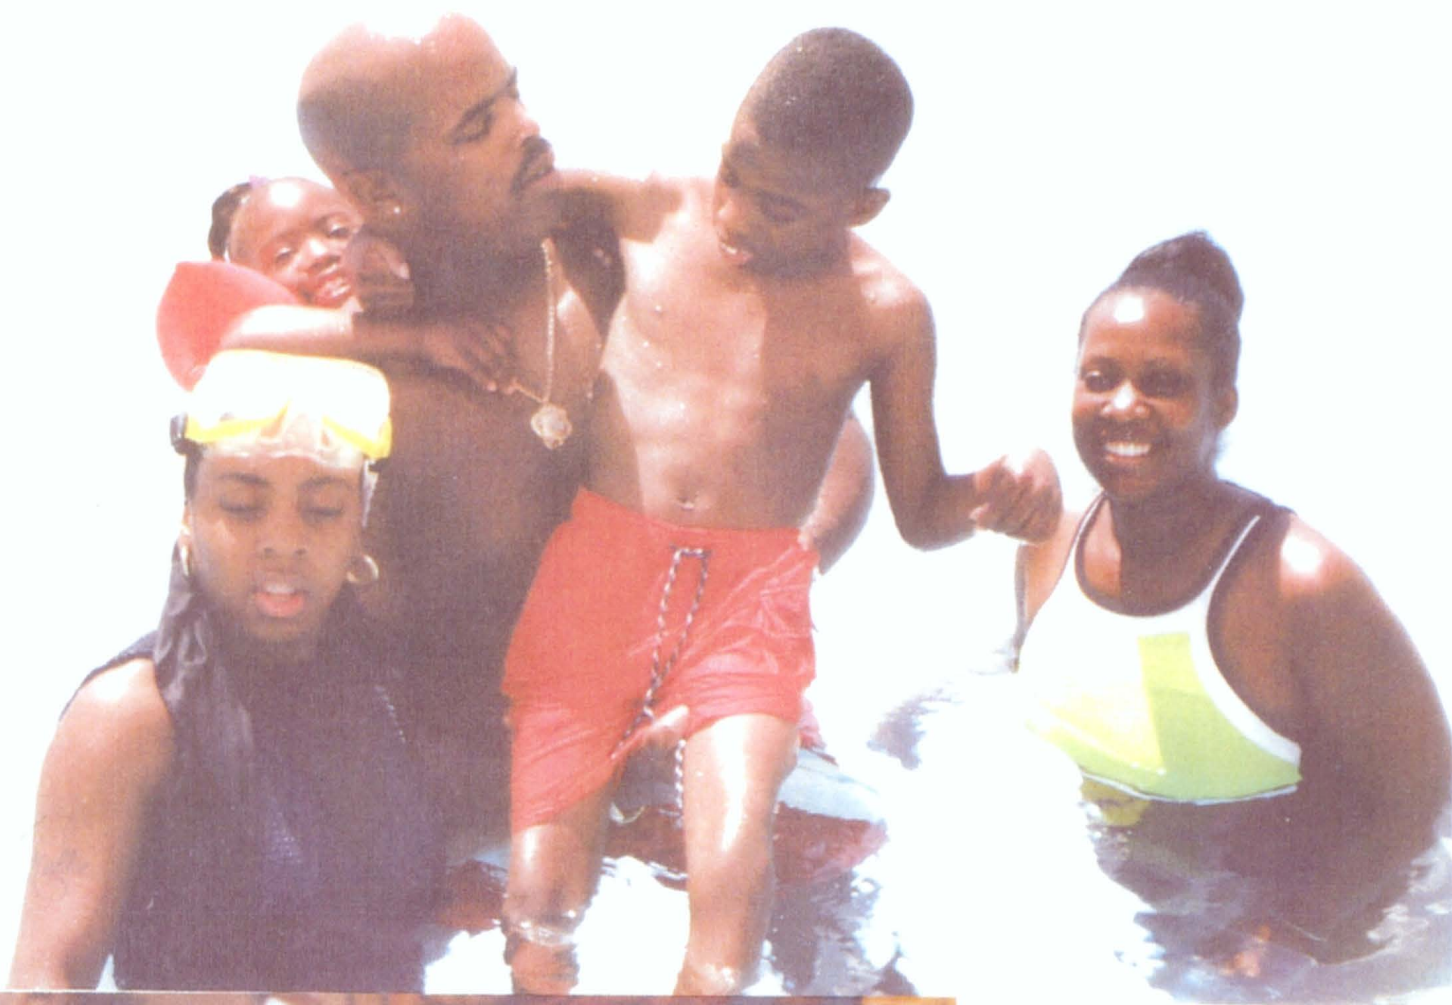

To tell you in a rhythm of your Mother's heartfelt Love!

You have brains in your head.
You have feet in your shoes.
You can steer yourself
Any direction you choose.
Just remember one thing I taught you
As you go on to a new and exciting place..
The choices you make today
Will tomorrow stare you in the face.
Make choices wisely and firmly....

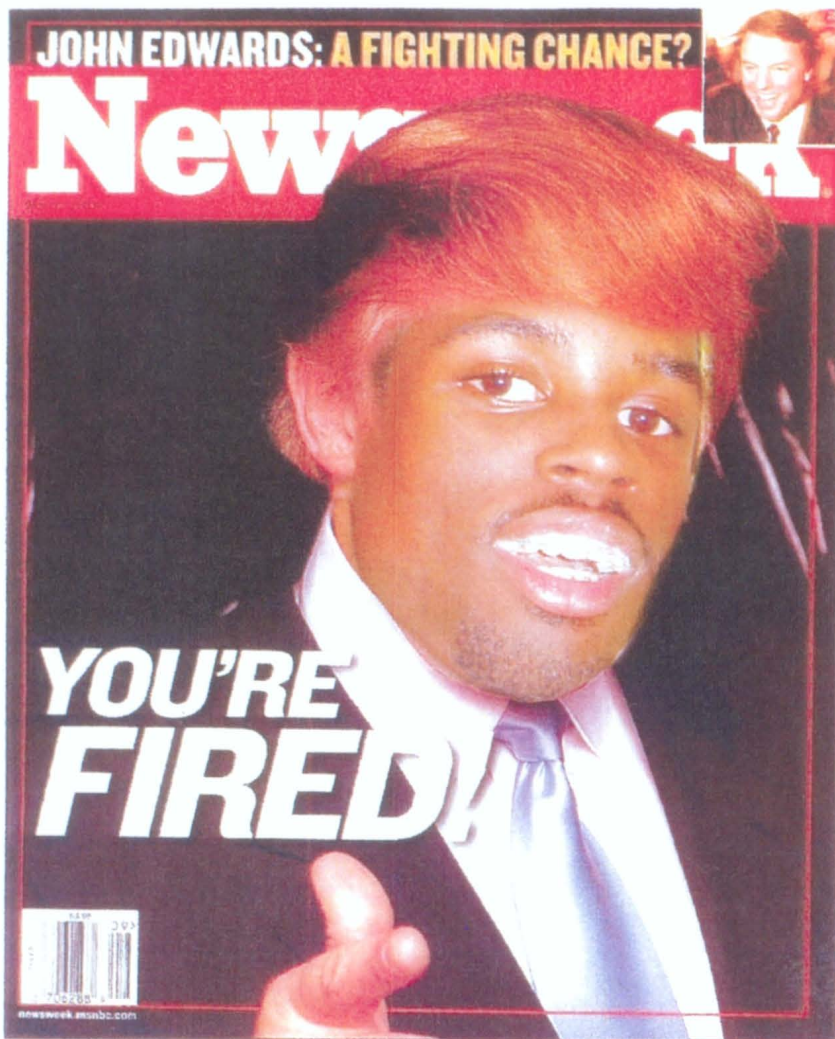

To Our Son Kylin,

From the day the doctor's told us "don't expect much" we began to say we will expect everything. You have accomplished so much for yourself and in doing so have brought so much joy to our lives.

You have such a wonderful spirit that everyone you come into contact with feels you and is captivated by you. I pray that spirit and refreshness about you never ceases.

Congratulations Kylin!!

*It was a pleasure
working with you
throughout the years! I
wish you continued success
throughout college and
your life's journey!*

Congratulations Lorren Merritt

Izzy, May, and Stephanie,

*Thanks for the best four years of my high school life. I hope
you guys accomplish all you goals and dreams. I love you!*

*Best Wishes,
Jannalee*

To my baby Nat.
Wishing you all the best.
I love you very much.
Love, Mom

To my lil sister Natalie,
I'm very proud of you, and all that have accomplished!
Congratulations and good luck with the next four years to come!!
Love, your sis Camille

To Lawrence Kylin Furlow,

Our Heaven's very special grandchild.

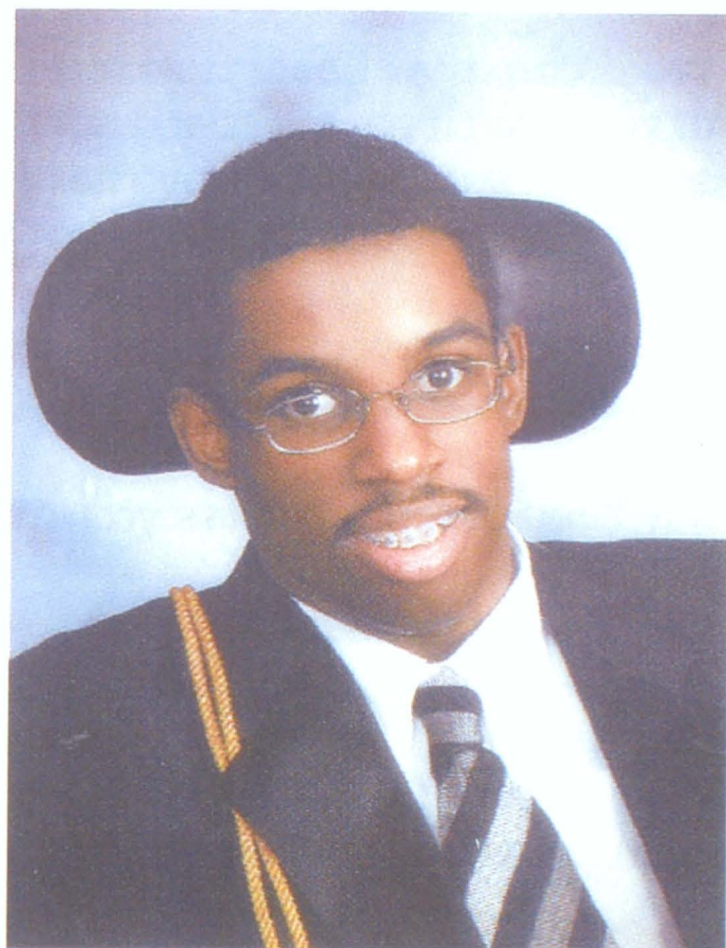

We congratulate and wish you and your entire class of 2010 - the best of success in all your future endeavors.

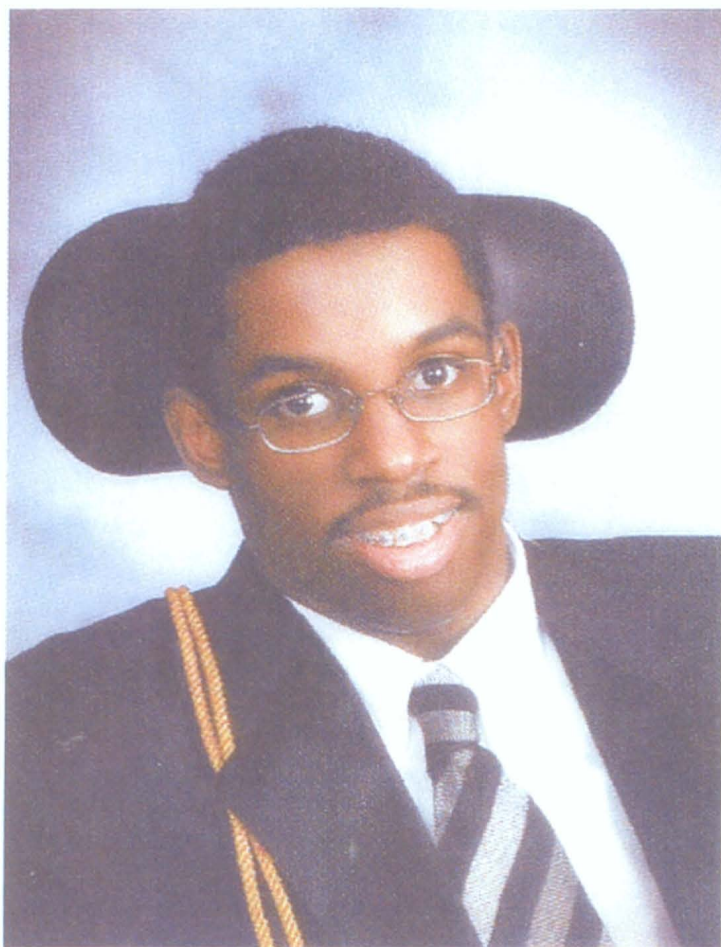

Kylin, we are so proud of you and the outstanding achievements and numerous significant, individual accomplishments you have personally obtained.

Thank GOD for the roll he has allowed us to play in your life as you've grown and matured day by day.

So with you, Grandson, sent from above, comes the strongest of faith and the richness of love

NANA & GRANDADDY

L. Kylin Furlow,

Words can never begin to express how exceptionally proud we are of you! You have exceeded each and every goal, ambition and milestone set thus far. You have never allowed any obstacles or barriers prevent you from achieving what you've aspired to accomplish.

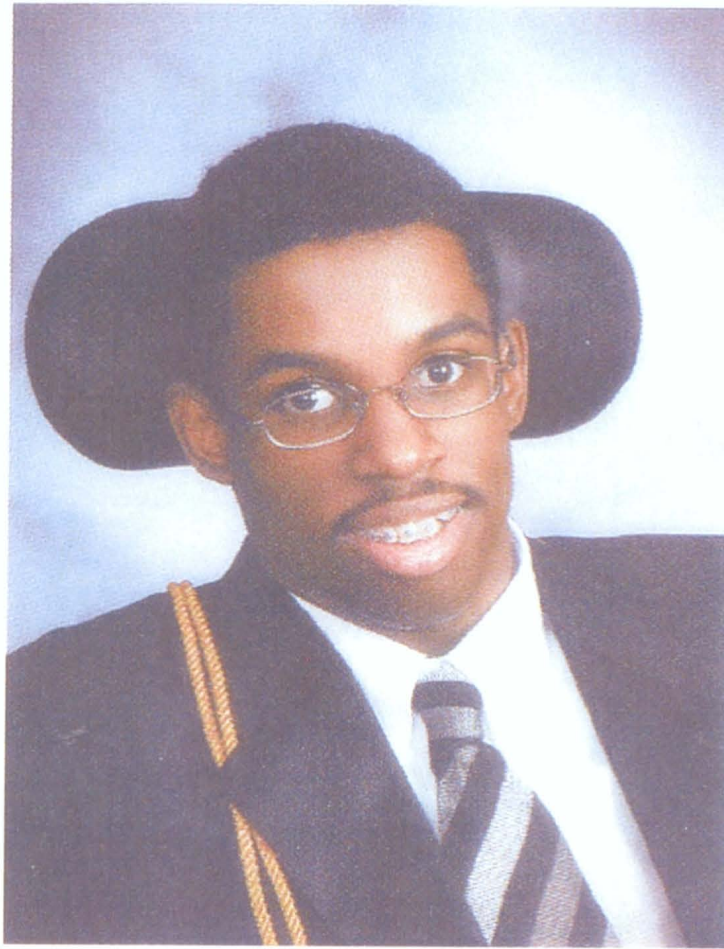

Continue on in your future growth and development while successfully pursuing the career of your choice.

May God continue to bless you in all your efforts.

We love you always,

Your Uncles,

John Brownlee Jr., Walter E. Brownlee, and George R. Brownlee

To Our Grandson Kylin

We are extremely proud of all your accomplishments. Keep up the good work. We always knew you could do it. Continue with perseverance.

Graduation picture

You are always in our prayers

Love

Grandpa & Grandma Furlow
